

Canadian Vehicle Survey

L

Confidential once completed

Collected under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S19.

Si vous préférez recevoir ce carnet de bord en **français**, veuillez nous contacter au numéro de téléphone indiqué ci-dessous.

Survey Objective

The purpose of the survey is to help Transport Canada and Natural Resources Canada improve road safety, monitor fuel consumption and deal with the impact of vehicle usage on the environment. The information you give us will be combined with other data already available to provide a better understanding of vehicle usage, safety issues, and fuel purchases. The information you are asked to provide in this log covers:

- Start and end time of each trip - to see when traffic is on the road.
- Odometer readings for each trip - to measure distance travelled.
- Origin of each trip - to see why people are travelling.
- Number and age of passengers on each trip and types of roads driven - to provide information related to safety.
- Driver's sex and age - to obtain a profile of drivers.
- Fuel purchases - to monitor fuel consumption.

For more background information about specific questions, please see pages 20 and 21.

Reporting procedure

Please begin completing this log on the start date shown on the label on page 2.

Please continue to complete the log until the stop date shown on the label.

If you finish recording **20 trips** and **2 fill-ups** (or 5 partial fill-ups) before the stop date, please return the log at that point.

Any questions or concerns? ☎ **1-800-647-0642**

Thank you very much for your cooperation.

5-5400-83.1: 2006-09-22 STC/TRA-400-75103

Place label here

Mailing instructions: → 1. Please remove paper strip. 2. Fold flap and seal onto the back cover. 3. Mail.

Please read this first

Please do not complete this log while driving.

1. Please verify that the vehicle information on the label above is correct and write any corrections on the label.
2. Please fill out the log only for the vehicle identified on the label.
3. All drivers using this vehicle should complete the log.
4. Most people have found that it is easier to complete the log if it is kept in the vehicle.

General Information

1. Do you still own or lease the vehicle described on the label?

- Yes
- Never owned or leased the identified vehicle
- No → **Was this vehicle**, (please check where applicable and record the date in the box provided)
- sold/traded
 - scrapped
 - returned (end of lease) date:

| | | | | | | | | | |
|-----|-------|--|--|--|--|--|------|--|--|
| | | | | | | | | | |
| day | month | | | | | | year | | |
 - leased to someone else
 - other: *please specify:* _____

Note: If you do not own or lease this vehicle, please mail back the log at this point.

2. Which of the following best describes this vehicle?

- | | |
|--|---|
| 1 <input type="radio"/> car | 6 <input type="radio"/> bus |
| 2 <input type="radio"/> station wagon | 7 <input type="radio"/> straight truck |
| 3 <input type="radio"/> van | 8 <input type="radio"/> truck tractor |
| 4 <input type="radio"/> sport utility (Explorer, Blazer, Jeep, etc.) | 9 <input type="radio"/> other: <i>please specify:</i> _____ |
| 5 <input type="radio"/> pick-up | |

3. What kind of fuel does this vehicle use?

- | | |
|-------------------------------------|-------------------------------------|
| 1 <input type="radio"/> gasoline | 4 <input type="radio"/> propane |
| 2 <input type="radio"/> diesel | 5 <input type="radio"/> ethanol |
| 3 <input type="radio"/> natural gas | 6 <input type="radio"/> other _____ |
- (please specify)*

Federal Agreement

To avoid duplication in surveys and to provide consistent statistics, Statistics Canada has entered into an agreement under section 12 of the *Statistics Act* with Transport Canada and Natural Resources Canada for the sharing of information from this survey. Under section 12 of the *Statistics Act*, you may refuse to share your information with Transport Canada or Natural Resources Canada by writing to the Chief Statistician and returning your letter of objection along with the completed questionnaire.

While participation in this survey is voluntary, your co-operation is very important.

Please continue
on the next page.

FOR INFORMATION ONLY

Dates Not in Use

If this vehicle was not used for one or more days during the reporting period shown on the label on page 2, please provide the date(s) below.

| | | | | | | | |
|----|-------------|----|-------------|----|-------------|----|-------------|
| 1. | Day Month | 2. | Day Month | 3. | Day Month | 4. | Day Month |
| 5. | Day Month | 6. | Day Month | 7. | Day Month | | |

- check here if this vehicle was not used for more than 7 days during the reporting period.
- check here if this vehicle was not used at all during the reporting period.

Instructions for Completing the Log

Listed below are the instructions for completing the log. Please read them carefully and if you have any questions, contact us at the toll-free number shown on the front cover.

Please record the first 20 trips you make, using the identified vehicle, starting on the start date shown on the label on page 2. Please also record 2 fuel fill-ups or 5 partial fill-ups on pages 22 and 23.

When you have recorded 20 trips and 2 fuel fill-ups (or 5 partial fill-ups) OR the reporting period shown on the label on page 2 has ended, please mail back your completed log.

Odometer

The odometer is the instrument on the front dash or panel of your vehicle which measures the distance that your vehicle has been driven to date.

Odometer Reading - Question 2

Provide the odometer reading at the beginning and at the end of each trip to the nearest kilometre. **It is not necessary to report the tenths.**

Trip

A trip is defined as your travel from one location to another.

Report a separate trip each time:

- the driver gets in the vehicle
- OR
- any passenger gets in or out of the vehicle

Instructions for Completing the Log - Concluded

Trip start (origin of trip) - Question 4

Most of the places are self explanatory but a few require explanation.

Someone else's home can be the home of your passenger, the babysitter, a friend or a relative - any home other than your own.

Driver's regular workplace is the driver's usual place of work.

Another workplace should be used when you are working somewhere other than your usual workplace or driving from someone else's workplace.

School can be used to indicate either the driver's school or the passenger's school. (School should be used for students only, not for employees at the school)

Medical/dental facility includes any facility related to health, such as labs and physiotherapy centre.

Leisure/entertainment/recreational facility/restaurant is a very broad category and includes hotels, gyms, movie theatres, facilities holding sporting activities or any place dealing with your or your passenger's leisure time.

Gas station/rest-stop should be used when you purchase fuel, make use of rest-stop facilities or stop for a break during a trip.

Driving as part of the job - Question 5

This includes service calls, sales calls, deliveries and pick ups, as well as business trips. Taxis are also in this group. If you are driving this vehicle as part of your job and if you make many stops, you can report that as one trip. Please see example 2 if you are driving as part of the job and make many stops.

Trip stop - Final destination - Question 4b, page 18

We will use the origin of one trip to determine the destination of the previous trip. In order to have the destination of your final trip, please make sure to complete the final trip on page 18.

Fuel

In order to calculate fuel consumption, it is important to have 2 fuel fill-ups (tank is full after fuel purchase). If you do not fill up the tank twice during the reporting period, please record 5 fuel purchases.

If you purchase fuel, please record the purchase on pages 22 and 23.

Comments about the log

Note:

Flip out this page.

It has the written description
for two examples.

FOR INFORMATION ONLY

Examples for Completing the Log

The completed trips, for these examples, are on pages 6 and 7.

Example 1 – Travel to work with stops and a change of passenger

John is a male driver who is 36 years old. On September 8, John and his wife, Mary (who is 32 years old), leave their home at 7:05 a.m. to go to work (**he should enter 1 passenger in the box beside age group 25 to 34 in Question 3**).

On the way, they stop to fill up the car with \$34.96 of gas and pick up coffee. John then stops to drop Mary off at her office and arrives at his work at 7:55 a.m.

The odometer read 74,836 kilometres when they left home; 74,842 when they stopped for fuel; 74,851 when John dropped Mary off and 74,861 kilometres when John arrived at work.

They drove 7 kilometres on roads with posted speed limits of 80 km/h or more between when they stopped for coffee and when John dropped Mary off.

This would be considered as three trips: home to gas station, gas station to Mary's office and Mary's office to John's office. The completed trips for this example are on pages 6 and 7. The completed fuel purchase information is on pages 22 and 23.

Example 2 – Many stops while driving as part of the job

On July 8, Sam, a 25-year-old deliveryman, drives to work using his own car. Then he drives a delivery van, which is the vehicle chosen for the survey.

When he gets in his delivery van at 7:30 a.m., the odometer reading is 82,456 kilometres. During the day, he delivers bakery products to many stores within the city.

At 4:00 p.m., he returns to the bakery, and then takes his car home. The odometer of the delivery van at the end of the day reads 82,570 kilometres.

The driving Sam did using the van can be reported as one trip since he made many stops throughout the day AS PART OF HIS JOB. Sam does not report his trip to and from his workplace since he was not driving the vehicle chosen for the survey. The completed trip for this example is on page 7.

For a written description of these examples please see the "flip-out" page.
