

# 2026 CENSUS OF AGRICULTURE

## Your Farm. Your Census. Our Future.

### The 2026 Census of Agriculture is coming.

In **May 2026**, farm operators will receive an invitation letter with instructions for completing their 2026 Census of Agriculture questionnaire online.

### Census of Agriculture data provide:

- farm operators and industry organizations with crucial information for informed business decision-making;
- all levels of government with high-quality information that they need to develop and implement policies and programs; and
- the agriculture sector, all levels of government and the Canadian public with an accurate statistical portrait of the state of agriculture in Canada.

Your response matters. This May, please complete your Census of Agriculture questionnaire to support your sector and Canadians everywhere.
