
Employment, Earnings and Hours

**Conversion table from the
Standard Industrial Classification 1980 (SIC 1980) to the North
American Industrial Classification System (NAICS).**

Note on data conversion table

The Survey of Employment, Payrolls and Hours is now producing its estimates based on the North American Industrial Classification System (NAICS). In order to assist users in the transition, a concordance table between the two classifications has been produced. First, the employment estimates for each SIC-80 code was redistributed to its proper NAICS. Then, the employment attributed to a given NAICS (from each SIC-80 code) was calculated as a percentage of the total employment for the respective SIC-80 code (Column D). Also, in column E, the employment of a given SIC-80 migrating to a NAICS is calculated as a percentage of the total employment estimated for that NAICS. This table was produced using data at the Canada level. For more information contact the Labour Statistics Division by telephone: (613-951-4090; fax: 613-951-4087; e-mail: labour@statcan.ca).
