		=====	=====
		14,606	N/A

Coverage: Respondents who took some post-secondary education between January 2000 and December 2001.

Note: This variable was derived from the variables: C1OpenI, IEF, DSPRMD2, DSPRYD2, (DSAINM_i and DSAINY_i from cycle1)

Indicates the date a respondent started a post-secondary program at this institution either on a full-time or a part-time basis prior to January 2002.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

		14,606	N/A

Coverage: Respondents who took some post-secondary education between January 2000 and December 2001.

Note: This variable was derived from the variables: C1OPENI, IEF, PSILNGID, PSPLNGID, CLGPRD2, H2Q102 and (HLATT_i from cycle 1).

Category <1> includes respondents who have graduated from a post-secondary program and were attending an additional post-secondary program at the same institution in December 2001.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

The Youth in Transition Survey (YITS) - Cycle 2
Cohort B - Education above High School (Institution roster)

Variable Name: **NEPRPID2** *Position:* 27 *Length:* 1

Derived Variable: Number of eligible post-secondary programs taken at this institution between January 2000 and December 2001.

Allowed values: 1 : 3

		FREQ	WTD
1 : 3	Number of eligible programs	12,989	N/A

		=====	=====
		14,606	N/A

Coverage: Respondents who took some post-secondary education between January 2000 and December 2001.

Note: This variable was derived from the variable PEF.

Programs were checked for eligibility. To be eligible, a program must be above the high school level, towards a diploma, certificate or degree, take at least three months to complete, and started prior to January 2002. Refers to the total number of programs taken in each institution, where the number of programs does not exceed the limit. Thus, 3 programs are collected for institutions 1 and 2, 2 programs for institution 3 and 1 program for institution 4.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondents participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

Coverage: Respondents who took some post-secondary education between January 2000 and December 2001.

Note: This variable was derived from the variables IEF, PEF, FPLPRD2, DLPRMD2 and DLPRYD2.

If two or more programs at the same institution have the same departure date, a respondent who attends at least one of the programs on a full-time basis will be listed in FPLIND2 as full-time.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.
