99	Not stated	44	N/A
		=====	=====
		10,423	N/A

*Coverage:* Respondents who took some post-secondary education between January 2002 and December 2003.

*Note:* This variable was derived from the variables: C2OpenI, IEF, DSPRMD3, DSPRYD3, (DSAINMD2 and DSAINYD2 from cycle 2).

Indicates the date a respondent started a post-secondary program at this institution either on a full-time or a part-time basis prior to January 2004.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

		10,423	N/A

*Coverage:* Respondents who took some post-secondary education between January 2002 and December 2003.

*Note:* This variable was derived from the variables: DLPRMD3 and DLPRYD3.

Indicates the date a respondent was last taking a post-secondary program at this institution either on a full-time or a part-time basis prior to January 2004.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

9	Not stated	66	N/A
		=====	=====
		10,423	N/A

*Coverage:* Respondents who took some post-secondary education between January 2002 and December 2003.

*Note:* This variable was derived from the variables: C2OPENI, IEF, PSILNGID, PSPLNGID, CLGPRD3, H3Q102 and (HLATTD2 from cycle 2).

Category <1> includes respondents who have graduated from a post-secondary program and were attending an additional post-secondary program at the same institution in December 2003.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

Cohort B - Education above High School (Institution Roster)**

---

*Variable Name:*            **NEPRPID3**                            *Position:*    27                            *Length:*        1

Derived Variable: Number of eligible post-secondary programs taken at this institution between January 2002 and December 2003.

*Allowed values:*            1 : 3

		FREQ	WTD
1 : 3	Number of eligible programs	9,110	N/A
6	Valid skip	1,313	N/A
		=====	=====
		10,423	N/A

*Coverage:* Respondents who took some post-secondary education between January 2002 and December 2003.

*Note:* This variable was derived from the variable PEF.

Programs were checked for eligibility. To be eligible, a program must be above the high school level, towards a diploma, certificate or degree, take at least three months to complete, and started prior to January 2004. Refers to the total number of programs taken in each institution, where the number of programs does not exceed the limit. Thus, 3 programs are collected for institutions 1 and 2, 2 programs for institution 3, and 1 program for institution 4.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondents participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.

		=====	=====
		10,423	N/A

*Coverage:* Respondents who took some post-secondary education between January 2002 and December 2003.

*Note:* This variable was derived from the variables: IEF, PEF, FPLPRD3, DLPRMD3 and DLPRYD3.

If two or more programs at the same institution have the same departure date, a respondent who attends at least one of the programs on a full-time basis will be listed in FPLIND3 as full-time.

Institution level derived variables refer to respondent's participation at an institution for a specific time frame. Due to the manner in which information is collected, it is possible for respondents to report attendance at the same institution more than once within a cycle and between cycles. For this reason, for analyses that address respondent's participation at a particular institution over time, researchers should use the institution code in addition to the institution level variables.
