General information

Survey purpose

Statistics Canada conducts this survey to obtain detailed and accurate data on this industry, which is recognised as being an important contributor to the Canadian economy. Your responses are critically important to produce reliable statistics used by businesses, non-profit organizations and all levels of government to make informed decisions in many areas.

The information from this survey can be used by your business to benchmark your performance against an industry standard, to plan marketing strategies or to prepare business plans for investors. Governments use the data to develop national and regional economic policies and to develop programs to promote domestic and international competitiveness. The data are also used by trade associations, business analysts and investors to study the economic performance and characteristics of your industry.

Data-sharing agreements

To avoid duplicating surveys and to ensure more uniform statistics, Statistics Canada has entered into data-sharing agreements with many provincial and territorial statistical agencies.

The objective of these data-sharing agreements is to share data from some surveys for those business establishments operating within their respective jurisdictions. **These agreements require that the shared data be used only for statistical purposes and be kept confidential.** Survey participants are always informed at the time of collection if a sharing agreement applies to a particular survey.

There are two types of data-sharing agreements that exist under the *Statistics Act*.

Agreements under Section 11 of the *Statistics Act* allow the sharing of information from the Unified Enterprise Survey program with the statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia and Yukon. These statistical agencies have been established under provincial and territorial legislation authorizing them to collect this information on their own or jointly with Statistics Canada. Their legislation also provides the same confidentiality protection and outlines similar penalties for disclosure of confidential information as the federal *Statistics Act*.

Agreements under Section 12 of the *Statistics Act* allow the sharing of information from the Unified Enterprise Survey program with the statistical

agencies of Prince Edward Island, the Northwest Territories and Nunavut. All these Section 12 agreements require that the information be kept strictly confidential.

Under Section 12, you may refuse to share your information with any of these agencies by writing a letter of objection to the Chief Statistician of Canada and returning it with your completed questionnaire. Please specify those agencies from which data shall be withheld.

Please note that Statistics Canada does not share any individual survey information with the Canada Revenue Agency.

For more information about these data-sharing agreements, please contact Statistics Canada at **1-888-881-3666** or visit our website at **www.statcan.ca**.
