Foreign direct investors – are foreign entities (persons, private or public corporations) with 10% or more of the voting equity in the Canadian reporting enterprise.
Foreign sister companies – are foreign companies with whom you have an equity or debt relationship and share the same foreign parent company. Neither sister company owns more than 10% voting power in the other sister company.

Other foreign investors – Investment by other foreign investors in shares or debt is considered to be passive, in other words, they have no influence on the operation of the Canadian reporting enterprise and hold less than 10% of the voting equity.

C2. FOREIGN BANK LOANS (IDENTIFY EACH LOAN SEPARATELY)

Foreign bank loans are usually from a single banking institution in a foreign country. In this case, the distribution of the bank loan would be assigned 100% to one foreign country. However, in the case of a syndicated bank loan, you should indicate the lead bank under “Bank Loan Details” but list all foreign countries and their respective amounts represented under the terms of the syndication under the “Foreign ownership Distribution”. For each bank loan, use the country code list provided on page 10 to identify the country where the loan originated.
