Province/country of origin and destination of products sold

The goal of this section is to understand the supply chain for your products. We will ask for the percentage breakdown for each product sold according to the origin of the products purchased and the destination of products sold (see the grids on the next page).

Please note that your best estimates are acceptable.

Origin: to the best of your knowledge, where the products were originally produced or manufactured (i.e., which province, territory or country outside Canada). If the origin of the products is unknown, an acceptable substitute is the location of this business's supplier.

Note: exclude intermediate shipping points from your supplier to you.

The total for the origin should be equal to 100%.

Destination: to the best of your knowledge, the location where the products will ultimately be used (i.e., which province, territory or country outside Canada).

Acceptable substitutes:

- shipping destinations
- location of your retail customers
- location of your warehouses.

The percentages should sum to 100%.

If you have additional information, please use the blank origin and destination tables located at the end of the section.

Cost of goods sold and Sales of goods

Please report the cost of goods sold and the sales of goods in thousands of Canadian dollars. When precise figures are not available, please provide your best estimate.

Statistics Canada engages in web-data extraction, also known as web scraping, which is a process by which information is gathered and copied from the web using automated scripts or robots, for retrieval and analysis. As a result, we may visit the website for this organization to search for and compile additional information. The use of web scraping is part of a broader effort to reduce the response burden on organizations, as well as produce additional statistical indicators to ensure that our data remain accurate and relevant.

We will strive to ensure that the data collection does not interfere with the functionality of the website. Any data collected will be used by Statistics Canada for statistical and research purposes only, in accordance with the agency's privacy and confidentiality mandate. All information collected by Statistics Canada is strictly protected.

For more information regarding Statistics Canada's web scraping initiative, please visit <http://www.statcan.gc.ca/eng/our-data/where/web-scraping>.

General information

Confidentiality

Your answers are confidential.

By law, Statistics Canada is prohibited from releasing any information it collects that could identify any person, business, or organization, unless consent has been given by the respondent, or as permitted by the *Statistics Act*. Statistics Canada will use the information from this survey for statistical purposes only.

Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data-sharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the *Statistics Act* provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis, and the legislation must provide substantially the same provisions for confidentiality and penalties for disclosure of confidential information as the *Statistics Act*. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are **Section 11** agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Québec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia and the Yukon.

The shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Section 12 of the *Statistics Act* provides for the sharing of information with federal, provincial or territorial government organizations. Under **Section 12**, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the organizations with which you do not want to share your data.

For this survey, there are **Section 12** agreements with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut.

For agreements with provincial and territorial government organizations, the shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Record linkages

To enhance the data from this survey and to reduce the reporting burden, Statistics Canada may combine the acquired data with information from other surveys or from administrative sources.

Thank you for completing this questionnaire.
