SURVEY OF HOUSEHOLD SPENDING 2021

Your diary of daily expenses

THANK YOU!
We greatly appreciate
your participation.

Collected under the authority of the Statistics Act,
Revised Statutes of Canada, 1985, Chapter S-19.

Tips for completing the diary:

- Report all expenses for all members of your household
- Report each expense by providing a receipt or by writing it in the diary.
- Do not write expenses if receipts are provided.

Providing a receipt?

- Add the date of purchase to the receipt if it is missing using a black ink pen.
- Black out personal information found on the receipt.
- Put the receipt in the pocket.

Transcribing in the diary?

- Write the date of purchase for each expense using a black ink pen.
- Record each item purchased separately.
- Clearly print your entries.

Did not spend today?

- Write “no spending” along with today’s date in the “Expenses-in stores and online” section.

Please insert your receipts in this pocket

Thank you for completing the first part of the survey. The only thing left to complete is your diary of daily expenses.

Why a diary?

To save time, some expenses were not covered in detail during the survey. Frequent day-to-day expenses are often forgotten or understated when collected, but overall they can represent a good portion of a household's budget. This diary will help you to report all of your household's daily expenses and will also help you track your weekly spending.

Where does all our money go?

When identifying expenses, some easily forgotten items include coffee and meals purchased at work, school or on the go; miscellaneous items purchased at the pharmacy, grocery store and hardware store; and items purchased by other members of the household. Other examples of forgotten expenses include tickets for the theatre, movies and sporting events; pet food; drinks purchased in bars; purchases made in garden centres and sports stores; and online purchases.

To ensure nothing is forgotten, think about where you and other members of your household spend money. Do you shop in warehouse-type stores, big-box stores, markets or convenience stores? Does anyone in your household make purchases online? All that counts!

How to complete the diary:

Have a receipt?

This is the easiest way to keep track! Put receipts into the diary's pocket. You will not have to transcribe these expenses in the diary. Fill in the diary on a daily basis to avoid forgetting items.

If you don't have a receipt, transcribe an expense:

- Write the date (DD/MM) and a description of the expense.
- Record the cost (CAN\$) of each item after deducting coupons, rebates or gift certificates.

Expenses—in stores and online:

- Use this section to record your purchases in stores and online.
- Do not include taxes (unless already included in the cost, such as gas).

Expenses—restaurants, cafeterias, bars, coffee shops, etc.:

- Use this section for expenses in restaurants, fast food restaurants, snack bars, cafeterias, bars, coffee shops, vending machines, caterers, etc.
- Include all taxes, tips and alcoholic beverages in the total cost column, separating the cost of alcohol in the designated column.

Didn't spend anything today?

Please let us know by writing the date and "No spending" in the "Expenses—in stores and online" section.

How to return the diary:

Please use the return envelope that was included in the survey package to mail the completed diary back to us.
