QUARTERLY SURVEY OF FINANCIAL STATEMENTS

Addendum to the Reporting Guides for Financial and Non-Financial Enterprises

The questionnaires used in the Quarterly Survey of Financial Statements have been modified as of the second quarter of 2007. The principal changes to the questionnaires are summarized below. These changes were implemented in response to evolving financial reporting standards as outlined by the Canadian Institute of Chartered Accountants as well as requirements of the System of National Accounts. The full reporting guide will be updated shortly.

Assets

ITEM 19900: DERIVATIVES

A derivative is a financial security whose value is dependent upon or derived from the value of one or more underlying assets. The derivative itself is a contract between two or more parties. Its value is determined by fluctuations in the underlying asset. The most common underlying assets include stocks, bonds, commodities, currencies, interest rates and market indexes. Futures contracts, forward contracts, options and swaps are the most common types of derivatives. Since derivatives are contracts, just about anything can be used as an underlying asset. Derivatives are generally used to protect against financial risk, interest rates or the levels of financial indices but can also be used for speculative purposes.

For a derivative asset to be recognized, it must provide future benefits that your enterprise controls and for which a transaction has occurred.

ITEM 69100: REVERSE REPURCHASE AGREEMENTS

Reverse repurchase agreements are the purchase of securities with the agreement to sell them at a higher price at a specific future date. For the party selling the security (and agreeing to repurchase in the future) it is a repurchase agreement also known as a repo; for the counterparty (buying the security and agreeing to sell in the future) it is a reverse repurchase agreement. A reverse purchase agreement is the same transaction as represented below in item 69200 (Obligation Related to Repurchase Agreement), but viewed from the perspective of the transferee.

Liabilities and Equity

ITEM 29900: DERIVATIVES

Same definition of derivatives as above (item 19900). For a derivative liability to be recognized, it must represent an obligation to transfer value to a third party and there must be no way for your enterprise to circumvent its obligation.

ITEM 69200: OBLIGATIONS RELATED TO REPURCHASE AGREEMENTS

A repurchase agreement is an agreement with a commitment by the seller (dealer) to buy a security back from the purchaser (customer) at a specified price at a designated future date. Also called a repo, it represents a collateralized short-term loan for which, where the collateral may be a Treasury security, money market instrument, federal agency security, or mortgage-backed security. From the purchaser's (customer's) perspective, the deal is reported as a reverse repo. Repos are classified as a money-market instrument and are usually used to raise short-term capital.

ITEM 29950: EQUITY SECURITIES CLASSIFIED AS LIABILITIES

Include equities classified as liabilities as required in section 3861 of the CICA handbook outlining the accounting treatment for financial instruments. In essence, they are convertible preferred shares.

ITEM 32300: UNITHOLDERS' CAPITAL

Unitholders' capital represents the investment in the trust, fund or partnership by the owners.

ITEM 36000: ACCUMULATED OTHER COMPREHENSIVE INCOME

Comprehensive income is the change in the company's net assets that result from transactions, events and circumstances from sources other than the company shareholders. It includes items that would not normally be included in net income. The accumulated other comprehensive income account includes the accumulated balance of amounts reported on the income statement under items 56500, 56600 and 57300.

ITEM 38000: RETAINED EARNINGS

The statement of retained earnings has been integrated in to the balance sheet. Item 38880, other additions and deductions is removed.

ITEM 38300: INCOME TRUST DISTRIBUTIONS

Distributions of funds to the owners of the trust, fund or partnership.

ITEM 38400: TRANSFERS FROM/TO SHARE CAPITAL

Transfers between the retained earnings account and share capital accounts of the reporting unit. Also includes transfers between a reporting unit which is a branch of a company and its head office, or between two branches, each of which is a reporting unit.

Income Statement

ITEM 45400: INTEREST REVENUE FROM CANADIAN SOURCES – FINANCIAL LEASES

Include all interest revenue earned through financial leases.

ITEM 56400: DERIVATIVE GAIN (LOSSES)

Same definition of derivatives as above (item 19900). Impairments of derivatives are recognized in net income immediately and should be reported in item 56400. For more information on how financial instruments should be presented in financial statements please refer to Section 3861 of the CICA Handbook.

ITEM 62310: PENSION EXPENSE

Include pension expense incurred by the reporting entity per CICA handbook section 3461. Report other benefits expenses under item 55220 (Employer Portion of Employee Benefits)

ITEM 62340: STOCK OPTIONS EXPENSED

Include employee stock options that were expensed during the current period per CICA handbook section 3870.

ITEM 53400: DIVIDENDS PAID ON EQUITY SECURITIES CLASSIFIED AS LIABILITIES

Include dividends paid on equity securities classified as liabilities as required in section 3861 of the CICA handbook outlining the accounting treatment for financial instruments. These financial instruments are shown under item no. 29950 on the balance sheet.

ITEM 55600: BAD DEBTS EXPENSE AND CHARITABLE DONATIONS

Include bad debt expense and charitable donations for the period. These amounts were previously included in item 55003, other expenses.

ITEM 56500 / 56600 / 57300: OTHER COMPREHENSIVE INCOME

Comprehensive income is the change in the company's net assets that result from transactions, events and circumstances from sources other than the company shareholders. It includes items that would not normally be included in net income. Report as per CICA section 1530 (Comprehensive Income). Report realized and unrealized gains and losses available-for-sale financial assets. If impaired, report in item 56400-Derivatives Gains (Losses)

ITEM 56500: UNREALIZED GAINS (LOSSES)

Include unrealized gains and (losses) on derivatives designated as cash flow hedges, non-derivative investments and unrealized translation gains and losses from integrated self-sustaining entities (if applicable).

ITEM 56600: REALIZED GAINS (LOSSES)

Report the realization of (gains) losses previously reported in item 56500.

ITEM 57300: INCOME TAXES

Related to other comprehensive income.

Disclosure of Selected Accounts**ITEM 55700: SOFTWARE COSTS EXPENSED**

Include all computer software costs expensed directly in the current period. Report only the cost of own-use software whether purchased or licensed. Exclude any amounts deferred and amortized.

ITEM 66000: PENSION PLAN FUNDING

Report the closing balance for pension plans held through a trustee at the end of the quarter. Exclude other benefits plans.

ITEM 66100: PLAN ASSETS

Assets held by the trustee at market (fair) value

ITEM 66200: BENEFIT OBLIGATION

Actuarial obligation at the end of the quarter

ITEM 66300: FUNDED STATUS

Report the (deficit) or surplus net position (66100 minus 66200)

ITEM 66500: ACCRUED BENEFITS (LIABILITY) OR ASSET

Funded status adjusted for the unamortized amounts of transitional obligation, past service cost and net actuarial gain.

ITEM 81000: MATCHING OF INCOME STATEMENT GAINS (LOSSES) WITH THE RELATED ASSETS AND LIABILITIES

This statement is revamped to match the asset and liability items on the revised balance sheet.

DELETIONS

Item 34000 Appraisal increase credits (debits)

Item 35000 Retained earnings

Item 61405 Amounts owing to parents, subsidiaries and affiliates - Interest bearing debt

Item 61407 Amounts owing to parents, subsidiaries and affiliates - Non-interest bearing debt

Item 38810 Retained earnings - Total cash dividends declared

Item 38880 Retained earnings - Other

Item 52380 Amortization - Other

Item 55003 Other expenses

Item 74700 Unusual revenues, expenses, gains/losses from continuing business operations

Item 74100 Interest expense on debt owing to parent, subsidiaries and affiliates

Item 80003 Average number of people employed during the reporting period

Item 40012 Revenue between divisions that are eliminated upon consolidation of accounts

MODIFICATIONS**Balance Sheet****Assets****ITEMS 11300 and 11400: CASH AND DEPOSITS**

Cash and deposits are now requested in two cells:

11300 Canadian Currency

11400 Foreign Currency

These cells include both demand and term deposits. Previously cash and demand deposits were requested separately from term deposits

ITEMS 17112 and 17117: NON-MORTGAGE LOANS TO NON-AFFILIATES

a) loans to individuals, unincorporated businesses and non-profit institutions:

1) credit card receivables

2) lines of credit

These two variables were previously combined.

Liabilities and Equity

ITEMS 25700 and 25800: BORROWING FROM NON-AFFILIATES

a) loans and overdrafts:

- 1) from lenders in Canada
- 2) from lenders outside of Canada

Previously loans and overdrafts were requested separately for chartered bank branches in Canada and with others.

Income Statement

ITEM 52100: DEPRECIATION

This item was previously requested in two parts:

- a) depreciation on construction, buildings, structures and leasehold improvements
- b) depreciation on machinery and equipment.

FORMAT CHANGES

- Many cell names have been altered or shortened. For example, "Investments in and claims on parent, subsidiaries and affiliates" has been replaced with "Investments in affiliates." In such cases, as long as the SICA box number has not changed, the same definitions and reporting methods apply as before.
- All Supplementary questions have now been placed in the last section of the questionnaire, rather than at the end of each individual section.

INTRODUCTION

AUTHORITY

The quarterly and annual surveys of financial statements are conducted under the authority of the Statistics Act, Revised Statutes of Canada 1985, Chapter S19.

CONFIDENTIALITY

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported to this survey will be treated in confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.

PURPOSE OF THE QUARTERLY SURVEY

The data reported in the Quarterly Survey of Financial Statements is used to produce business financial statistics. The statistics are used in the national income and financial flow accounts, which are components of the Canadian System of National Accounts. The financial statements are aggregated to the industry level and are also published as a self-contained set of industry financial statistics. These statistics are available to the public and are used extensively by government, financial institutions, and industry associations.

TIMELINESS OF THE STATISTICS

Preliminary statistics must be prepared 45 calendar days after the quarter to meet the deadlines for the release of the quarterly national accounts. To meet these dates the survey data must be received within 30 calendar days after the quarter.

Late response to the survey causes delays in the release of the statistics. Since the usefulness of the statistics declines significantly if the releases are delayed, it is important to respond to the survey on time.

REPORTING ENTITY

The term "reporting entity" referred to on the front page of the questionnaire means the business entity covered by the quarterly financial statements. It is important for Statistics Canada to know precisely what operations are covered in the report to ensure total and unduplicated survey coverage of all business activity in Canada.

In almost all cases reporting entities fall into one of the following three categories:

1. a single corporation
2. a consolidated family of corporations
3. a branch or division or part of a corporation

In cases where a corporation does not have any ownership and control relationships with other corporations, the reporting entity should be the single corporation. Families of corporations under common ownership and control should report a consolidated financial statement in the quarterly survey questionnaire, except for the following situations:

1. Foreign subsidiaries and foreign branches of Canadian corporations covering foreign operations are to be excluded.
2. Foreign parents of subsidiaries that operate in Canada are to be excluded to the extent that they do not have any of their own operations in Canada.
3. The family of corporations is not viewed as one economic unit, and consolidated financial statements are not prepared quarterly or annually.
4. The family of corporations whose major industrial activity is non-financial but include financial activities should report the two types of activities in separate reports. Financial activities include such things as banking, lending, investing, brokerage and insurance. Insurance corporations that are part of a family should report separately.
5. The family of corporations covers diverse and independent industry activities which are unrelated and organized as separate business segments for which separate financial statements are prepared. In such cases each business or business segment is to report separately. Each business must be capable of reporting separate financial statements including a complete balance sheet and income statement.

If a family of corporations does not consolidate the financial statements of the parent corporation, and the parent has operations in Canada or is resident in Canada, it will have to submit a separate financial statement report to the quarterly survey.

REPORTING ENTITY PROFILE

You may find a separate document enclosed with the questionnaire listing the corporations included in the reporting entity. This document should be reviewed carefully, corrected if necessary, and returned with the completed questionnaire to Statistics Canada. Subsidiaries and affiliates that are accounted for in the financial statements as a one-line consolidation or net investment, using the equity method, should be excluded from the list of corporations on the reporting entity profile.

The register of all businesses maintained by Statistics Canada includes a list of corporations which are referred to as legal entities. To facilitate the matching of the reporting entities to the list of legal entities on the business register, the quarterly survey describes the reporting entities in the profile document in terms of the legal names of the corporations included in the report.

JOINT VENTURES AND PARTNERSHIPS

The survey covers the activities of joint ventures and partnerships as separate businesses from those of the venturers or partners. Therefore, these businesses are surveyed as separate reporting entities. To avoid double counting of these businesses the investors, venturers, and partners should account for their investments using the cost or equity method. Complete or proportionate consolidations of joint ventures and partnerships should not be done for the quarterly survey of financial statements.

However, it is recognized in some cases that separate financial statements for the joint venture are not produced quarterly or annually and it is the practice of the venturers to account for their investment by consolidating their portion of the joint venture in their financial statements. In such cases the joint venture is not reported as a separate entity, but it is covered in the reports of the venturers.

FOREIGN OPERATIONS OF CANADIAN ENTERPRISES

Definition: Foreign operations of Canadian enterprises include all business conducted by establishments that are situated outside Canada, including foreign branches, foreign divisions and foreign offices.

Report income from foreign operations as a net amount in item number 58100, "Equity in Net Income of Unconsolidated Affiliates." The assets of the foreign operations should not be reported on a line-by-line basis, but rather as a net amount in item number 14120, "Investments in Subsidiaries and Affiliates Outside Canada."

FOREIGN SUBSIDIARIES OF CANADIAN ENTERPRISES

Foreign subsidiaries should always be excluded from line-by-line consolidation and should be reported in either item 14120, "Investments in Subsidiaries and Affiliates Outside Canada," where control or significant influence exists, or in item 15200, "Foreign Investments in Non-Affiliates," for portfolio investments. Income from foreign investments reported on the cost basis, i.e., portfolio investments, should be reported in item 47000, "Foreign Dividend and Interest Revenue." Investments reported on the equity basis should include the investor's share of earnings in item 58100, "Equity in Net Income of Unconsolidated Affiliates," with the corresponding adjustment to the investment account in item 14200, "Accumulated Earnings Less Dividends Received."

Dividends received from foreign investments reported on the equity basis are excluded from the income statement and should be reported as supplementary item 75200, "Dividends Received from Corporations Accounted for on the Equity Method."

CLASSIFICATION OF CAPITAL AND HEAD OFFICE ACCOUNTS OF UNINCORPORATED REPORTING ENTITIES

Definition: Unincorporated entities include partnerships, joint ventures and Canadian branch operations of foreign corporations.

Temporary loans and advances that are intended to be repaid should be classified as a liability in item 24000, "Amounts Owing to Parent, Subsidiaries and Affiliates." Investments of capital of a permanent nature should be classified as owner's capital in item 31000, "Share Capital." Undistributed profits of the entity should be reported separately in item 38000, "Retained Earnings."

Summary:

Loans and advances to be repaid - item 24000

Permanent capital investment - item 31000

Undistributed profits - item 38000

COMPARABILITY AND PREDICTIVE VALUE OF QUARTERLY FINANCIAL STATISTICS

The quarterly statistics produced from this survey are used to analyze short- and long-term cyclical trends. They are also used as leading indicators to forecast future economic activity and business profits. In order for the statistics to be useful they should be free of volatile quarter to quarter changes which are caused by year-to-date bookkeeping adjustments included in the current quarter estimates. As well, changes in accounting policies and methods, changes in the corporations included in the financial statements, and changes resulting from mergers or amalgamations and other structural adjustments affect quarter to quarter comparability of the statistics.

Quarter to quarter changes in items such as depreciation, amortization, interest expense, income taxes and capital expenditures caused by year-to-date adjustments included in the current quarter should be documented in the questionnaire and brought to the attention of the Statistics Canada survey staff. These adjustments are reallocated to previous quarters in the current year to produce a better estimate of quarterly trends. As well, any other changes in the current quarter's financial statements that would render them incomparable with those of the previous quarter should be documented either in the reporting entity section on the front page of the questionnaire or on an insert.

YEAR-END AND PRIOR YEAR'S ADJUSTMENTS

One of the objectives of the statistical program is to get as accurate as possible a measurement of quarterly revenues, expenses, and profits. It is recognized that interim financial statements do in fact contain a number of estimates that are revised at year-end to actual amounts. Because of the preliminary nature of the interim financial statements, the quarterly statistical program provides for revisions to the statistics on an on-going basis. Revenues and expenses reported in the fourth fiscal quarter could include year-end adjustments from preliminary estimates to actual amounts for the year. The accounts could also include year-end accruals and reclassifications that are not made during the year in the interim financial statements. The adjustments can materially affect the fourth quarter revenue and expense accounts, which in turn could distort the fourth quarter profits. To eliminate the distortions respondents are asked to report year-end adjustments in excess of \$500 thousand in the appropriate section of the fourth quarter questionnaire.

Statistics Canada's annual financial statistics program uses the quarterly revenues, expenses, and profit accounts as reported to the quarterly survey to produce annual accounts. This eliminates the need to conduct an annual survey in addition to the quarterly survey. The sum of the accounts of the four quarters should agree with the annual accounts as published in the annual financial statements. Therefore, it is important to know about all year-end adjustments. There are situations where year-end adjustments have not been entered in the company books prior to the preparation of the Statistics Canada fourth quarter financial statement report. In these cases the reported fourth quarter closing balance of retained earnings will not agree with the year-end balance in the company's financial statements. In the report of the first quarter of the following fiscal year this imbalance will appear as an adjustment to retained earnings. This prior year's adjustment should be reported in the appropriate section of the first quarter questionnaire in the year-end and prior year's adjustments statement. In some cases the year-end adjustments may not be finalized until the second quarter subsequent to the year-end. In these cases the applicable information will be reported in the questionnaire for the second fiscal quarter.

ACCOUNTING PRINCIPLES - FINANCIAL STATEMENT PRESENTATION AND DISCLOSURE

The quarterly financial statements questionnaire is designed to collect structured information required for the industry financial statistics program, and the system of national economic accounts. The financial statements detail and supplementary questions and schedules which are not normally found in published business financial statements are required to make the necessary conceptual adjustments and to calculate the Statement of Change in Financial Position as prescribed by the program.

Generally, the financial statements should be prepared in accordance with the codified generally accepted accounting principles (GAAP) as set out in the Canadian Institute of Chartered Accountants (C.I.C.A.) Handbook.

Specific requirements of the survey that depart from the C.I.C.A. Handbook, other industry specific accounting principles, and financial statement disclosure standards are as follows:

Balance Sheet

- i) Bank account credit balances (overdrafts) should not be offset against bank account debit balances. All credit balances should be shown as liabilities.
- ii) Investments in subsidiaries, affiliates and joint ventures on the equity method are separated into two accounts, investment in the acquired shares, and post-acquisition accumulated equity in the investee.
- iii) Sinking funds related to funded debt should be shown separately as an asset in the investment category, not netted against the liability.

- iv) Fixed assets include assets leased to others under an operating lease, capitalized leases (lessee), and construction-in-progress (new capital projects). This category excludes intangible assets.
- v) Future Income Taxes: All balance sheet accounts including credit and debit balances, short and long term, should be shown net in one line on the liability side of the balance sheet in cell 27000.

Retained Earnings

- i) Prior Period Adjustments are to be included in cell 38700, "Other Additions or Deductions."

Income Statement

- i) Expenses related to the amortization of deferred debits and deferred charges should be included in cell 52320.
- ii) All unrealized losses, writedowns, and writeoffs of assets, including adjustments to net realizable values, should be included in cell 56200.
- iii) All realized gains and losses related to the disposal of investments, loans and capital assets (except extraordinary items) should be included in cell 48000.
- iv) Charges related to allowances and provisions for declines in values of assets should be included in cell 56200, "Write-offs and Valuation adjustments."
- v) Profits or losses accruing to minority shareholders of consolidated subsidiaries should include the minority shareholders' portion of extraordinary gains and losses of the subsidiary. This means that the entire extraordinary gain or loss attributable to the subsidiary must be included in the extraordinary gain or loss line item of the consolidated income statement.

Real Estate Industry

A common practice of this industry is to capitalize or defer operating expenses and revenues of new properties until they are substantially occupied. For purposes of the quarterly financial statement survey, all such operating revenues and expenses should be included in their appropriate categories in the income statement.

Discontinued Operations

Gains or losses from discontinued businesses related to operations should be disclosed as normal operations showing detailed revenues and expenses separately in the prescribed accounts in the income statement. As well, the balance sheet items related to discontinued operations should be shown separately in their respective accounts.

Estimated gains or losses forecasted from a future disposal of assets of a discontinued operation are classified as an unrealized gain or loss, and as such should be shown in the revaluation account (cell 56200).

ITEM NO. 11000**CASH AND DEMAND DEPOSITS****Definition**

Cash and demand deposits consist of coins, bank notes, money orders, postal notes, cheques, accepted sight drafts, demand and notice deposit balances with banks and other financial institutions. Cheques issued against the reporting entity's accounts but not yet cleared should be shown in item 22100 (Accounts Payable and Accrued Liabilities). If the reporting entity has more than one deposit account, debit balances should not be netted against credit balances. Credit balances should be classified as overdrafts in item 25110 or 25180 (loans and overdrafts).

Valuation

Cash items and deposit balances should be valued at their face value at the balance sheet date.

Foreign currency should be expressed in terms of Canadian dollars using the exchange rate at the balance sheet date.

Inclusions

- a) demand, notice and savings deposits
- b) restricted demand deposits

Exclusions

- a) bank overdrafts - see item 25110 (Loans and Overdrafts with Chartered Bank Branches in Canada)
- b) overdrafts in deposit accounts with other financial institutions - see item 25180 (Loans and Overdrafts with Others)
- c) term deposit, guaranteed investment certificates, term deposit certificates, bearer term notes - see item 11600 (Term Deposits)
- d) swapped deposits - see item 11600 (Term Deposits)

ITEM NO. 12800**ALLOWANCE FOR DOUBTFUL ACCOUNTS****Definition**

The allowance for doubtful accounts is a deduction from the book value of accounts receivable to reduce them to the estimated realizable value.

ITEM NO. 14000**INVESTMENTS IN AND CLAIMS ON PARENT, SUBSIDIARIES AND AFFILIATES****Definition**

This category covers all investments in and claims, other than trade accounts receivable, on non-consolidated parent, affiliated and subsidiary corporations, affiliated joint ventures and partnerships, head office, directors, officers and individual shareholders.

Subsidiary companies are corporations directly controlled (i.e., over 50% of the voting shares held) by the reporting entity.

Affiliated companies of the reporting entity are corporations which are:

- a) effectively controlled or whose operations are significantly influenced by the reporting entity despite its holding less than the majority of voting shares
- b) controlled or significantly influenced by another company under the reporting entity's control
- c) within the same family of corporations under common ownership and control

Valuation

Shares should be valued at acquisition cost and other investments should be shown at amortized cost. In cases where the investment value is permanently impaired and a write-down is recorded, this write-down will be reflected in item 56200 (Write-Offs and Valuation Adjustments). If the equity method is used, the cost of shares is shown separately in item 14100 from the accumulated earnings less dividends received which are shown in item 14200.

Inclusions

Claims:

- a) loans (including mortgage loans), notes and advances to "affiliates," and holdings of debt instruments issued by non-consolidated parent, subsidiary and affiliated corporations, head office, and affiliated joint ventures and partnerships
- b) loans, notes and advances to directors, officers, and individual shareholders
- c) dividends and other non-trade receivables from non-consolidated parent, subsidiary and affiliated corporations, head office, and affiliated joint ventures and partnerships

ITEM NO. 18310**LAND AND DEPRECIABLE ASSETS - GROSS****Definition**

These are tangible and intangible assets that are:

1. held by a corporation for use in the production or supply of goods and services, for rental to others (except real estate), or for administrative purposes, and may include items held for the maintenance or repair of such assets;
2. have been acquired or constructed with the intention of being used on a continuing basis;
3. not intended for sale in the ordinary course of business.

Also included are assets acquired under capital leases, which are leases where all the benefits and risks of ownership of leased property are transferred from the lessor to the lessee. Leased properties include land, buildings, machinery and equipment.

Also included are properties which the reporting entity has classified as non-productive or non-operating (i.e., not part of its fixed assets) and of which it is in the process of divesting itself.

Valuation

Land and depreciable assets should be valued at acquisition cost including interest capitalized, or allowance for funds used for construction, plus the cost of betterments, less write-downs to reflect permanent impairment.

Depreciable assets should be reported before deducting depreciation.

ITEM NO. 25200**BANKERS' ACCEPTANCES AND SHORT-TERM NOTES AND PAPER****Definition**

This item covers short-term notes and paper issued and outstanding.

Valuation

This liability should be valued at proceeds of the issue before deducting fees or commissions. However, many issues are issued at a discount and may be recorded at amortized value. If data on actual proceeds are not available, amortized values are acceptable.

Loans denominated in foreign currency should be expressed in Canadian dollars using the exchange rate in effect on the balance sheet date.

Inclusions

- a) finance and commercial paper
- b) demand or call notes
- c) bankers' acceptances - Bankers' acceptances is short-term money market financing that is guaranteed by a bank. It is a commercial draft or bill of exchange drawn by a corporate borrower for payment of a certain sum (usually a minimum of \$100,000) on a specified date and guaranteed by the borrower's bank. The acceptance must be drawn to finance the manufacture or marketing of a tangible good. In practice the maximum term has been 90 days, since the Bank of Canada will accept bankers' acceptances as collateral only for a term not exceeding 90 days. However there have been acceptances issued for longer than 90 days. Once a bank accepts or guarantees the draft, the draft is usually sold to a money market dealer, but banks have been known to provide the funds in a few cases

ITEM NO. 25400

BONDS AND DEBENTURES

Definition

This item covers bonds and debentures which represent long-term obligations. The instruments include a written promise to pay a specified sum of money at a fixed time in the future and to pay interest at a specified rate, and are usually secured by a pledge of assets. These debt instruments are usually marketable.

Valuation

This liability should be valued at proceeds of the issue before deducting fees or commission. However, many issues are issued at a discount and may be recorded at amortized value. If data on proceeds are not available, amortized values are acceptable.

Sinking funds consisting of investments may be established by the debtor under the terms of the bond agreement. The value of these investments should not be deducted from the value of the bonds outstanding but, rather, be shown in the appropriate asset category and the amount of debt shown at the actual amount outstanding.

Bonds and debentures retired through the use of sinking funds or other resources should be deducted from the total debt outstanding.

Investments in own bonds and debentures should not be netted against the corresponding liabilities but, rather, be shown in the appropriate investment category.

Bonds and debentures denominated in foreign currency should be expressed in Canadian dollars using the exchange rate in effect on the balance sheet date.

Inclusions

- a) mortgage bonds

- c) share capital - see item 31000 (Share Capital)

ITEM NO. 34000**APPRAISAL INCREASE CREDITS/DEBITS****Definition**

This refers to unrealized increases in the value of fixed assets arising from an appraisal. It represents the difference between the appraised value of the asset and its cost or depreciated cost.

Exclusions

Gains/losses resulting from the disposal of assets - these are recognized as income and flowed through the income statement under item 48000 (Gains/Losses on the Sale of Assets) or item 58300 (Extraordinary Gains/Losses - Net)

ITEM NO. 35000**RETAINED EARNINGS/HEAD OFFICE ACCOUNT****Definition**

Retained earnings refers to the accumulated undistributed earnings derived from all sources, including capital or extraordinary gains and losses. Retained earnings may be appropriated (i.e., set aside at the discretion of management or in accordance with the requirements of a statute, by-law, trust indenture or other agreement for a specific or general purpose) or unappropriated. Both are included here.

In general, the unappropriated portion of retained earnings is usually labelled simply as "retained earnings." Thus, if an industry's questionnaire contains separate accounts for appropriated retained earnings, the "retained earnings" covered by the Statement of Retained Earnings refers only to unappropriated retained earnings.

Head office account represents the undistributed profits a foreign company has left in an unincorporated branch operating in Canada. Also, other unincorporated entities such as partnerships and joint ventures, branches and divisions of corporations should include their undistributed profits in this account.

Inclusions

The undistributed profits portion of the head office accounts and capital accounts of unincorporated entities

Exclusions

- a) contributed surplus - see item 33000 (Contributed Surplus)
- b) appraisal surplus or appraisal increase credits/debits - see item 34000 (Appraisal Increase Credits/Debits)

ITEM NO. 40012**INTER-CORPORATE REVENUE (ELIMINATED ON CONSOLIDATION)****Definition**

This item represents the amount of inter-corporate revenue eliminated when reporting consolidated revenues. If your enterprise has revenue between plants, divisions, or companies that are eliminated upon the consolidation of your accounts, the value of that transaction is reported here.

ITEM NO. 41300**NEW ISSUES REVENUE: UNDERWRITING, TRADING AND COMMISSIONS****Definition**

This item covers all revenue derived from new issues: underwriting revenue, trading profits and losses and commissions on the placement of new issues.

Underwriting revenue and trading profits and losses are derived from an investment dealer's underwriting function; i.e., subscribing for part or all of a primary issue and reselling it, and consulting fees and commissions as members of underwriting and/or banking groups.

Commissions on the placement of new issues accrue from a dealer's undertaking to place primary issues on a "best effort" basis.

For many investment dealers, this item covers all revenue derived from new issues. Some investment dealers, however, differentiate between new issues revenue generated during the initial offering period and that from subsequent periods. For these, new issues revenue will be split between item 41400 (Principal Transaction Revenue) and this item.

Inclusions

Commissions and consulting fees on the issuing of short-term paper

Exclusions

- a) commissions earned from acting as agent or broker in securities transactions, i.e., brokerage commissions - see item 44200 (Brokerage Commissions)
- b) profits and losses earned from the buying and selling of securities on own account in the secondary securities market - see item 78200 (Trading Profits/Losses on Inventories of Securities)

ITEM NO. 41400

PRINCIPAL TRANSACTION REVENUE

Definition

Principal transaction revenue is revenue derived from the sale of new issues after it has been sold. (Note: Some investment dealers differentiate only among brokerage commissions - item 44200, revenue from trading as principals in the secondary market - item 78200, and revenue from new issues - item 41300. For them 41400 will not apply.)

Exclusions

- a) trading profits and losses on issues traded in the secondary market - see item 78200 (Trading Profits/Losses on Inventories of Securities)
- b) revenue from the sale of new issues from an investment dealer's inventory - see item 41300 (New Issues Revenue: Underwriting Revenue, Trading Gains and Commissions on Placement of New Issues) - Note: Some investment dealers do not differentiate new issues revenue between that arising from the initial offering and from subsequent to the initial offering. For these investment dealers, all new issues revenue should be reported under item 41300

ITEM NO. 44200

BROKERAGE COMMISSIONS

Definition

Commissions are remuneration to an agent or middleman for providing the service to the vendor or purchaser of bringing together the two parties to a transaction.

ITEM NO. 48000**GAINS/LOSSES ON THE SALE OF ASSETS (OPERATING)****Definition**

This item covers realized gains or losses on the sale of assets that are not considered extraordinary items - see item 58310 (Extraordinary Gains/Losses - Before Taxes). The assets in this category are not considered part of stock-in-trade purchased or produced for sale from the normal operations of the business. They are considered to be of a capital nature such as fixed assets, investments, loans and securities.

Valuation

The accounting measure of the gain or loss on the sale of an asset represents the difference between its book value and the proceeds of disposition before the deduction of incidental costs and income taxes applicable.

Exclusions

- a) incidental costs, e.g., legal fees, commissions - see item 55001 (Purchased goods, materials and services)
- b) unrealized gains/losses - see item 56200 (Write-Offs and Valuation Adjustments)

ITEM NO. 49000**OTHER REVENUE****Definition**

ITEM NO. 58100**EQUITY IN NET INCOME/LOSS OF UNCONSOLIDATED AFFILIATES****Definition**

This item is applicable only to reporting entities employing the equity method of accounting for investment in unconsolidated parent, affiliated and subsidiary corporations, affiliated joint ventures and partnerships. It covers the reporting entity's portion of the profit or loss for the current period of affiliates.

Exclusions

Under the equity method of accounting for investments, dividends received from affiliates that are credited directly to the investment account will not appear in this item, nor will they be included in the measurement of net income - see items 75100 and 75200 (Dividends Received from Corporations Accounted for on the Equity Method)

ITEM NO. 58200**MINORITY SHAREHOLDERS' PORTION OF NET INCOME/LOSS****Definition**

In cases where reporting entities consolidate a subsidiary which is not wholly owned, the portion of the subsidiary's profit or loss for the current period accruing to the minority shareholders will be shown in this item.

Contrary to C.I.C.A. treatment, which requires the exclusion of the minority shareholders' portion of extraordinary gains and losses of consolidated subsidiaries, the IOFD definition requires that this item include the minority shareholders' interest in all revenues, expenses, gains and losses, including extraordinary gains and losses. The consolidated accounts should include 100% of the subsidiary's revenues, expenses, gains and losses, including extraordinary gains and losses.

ITEM NO. 58300**EXTRAORDINARY GAINS/LOSSES - NET****Definition**

Gains, losses and provision for losses which are not typical of the normal business activities of the reporting entity. In a business, the events giving rise to extraordinary gains/losses are not expected to occur regularly over a period of years, and are not considered as recurring factors in ordinary business operations.

In the case of consolidated financial statements, the parent's portion as well as the minority shareholders' share of extraordinary items (i.e., 100% of the gains or losses) should be included in this item. This treatment is contrary to C.I.C.A. guidelines which recommend that only the parent's portion of a subsidiary's extraordinary item be reported.

Inclusions

- a) events and circumstances that do not depend primarily on decisions or determinations by management or owners
- b) intervention by government or other regulatory bodies such as expropriations of property
- c) acts of God such as floods or earthquakes
- d) losses resulting from fires or other catastrophes

Exclusions

- a) tax benefit of a loss carried forward - see item 57000 (Canadian Income Taxes)
- b) gains/losses from discontinued operations
 - i) results of current operations should be reflected in appropriate revenue and expense items
 - ii) recognition of future gains or losses - see item 56200 (Write-offs and Valuation Adjustments)
 - iii) realized gains/losses - see item 48000 (Gains/Losses on the Sale of Assets)
- c) unusual and non-recurring items that do not meet the criteria set out in the definition of extraordinary gains/losses
 - i) asset valuation adjustments such as write-downs and write-offs to net realizable values - see item 56200 (Write-offs and Valuation Adjustments)
 - ii) gains and losses on the disposal of investments, fixed assets and loans - see item 48000 (Gains/Losses on the Sale of Assets)

- iii) provisions for future liabilities for estimated costs that will be paid in the future - see item 55001 (Purchased goods, Materials and Services)

ITEM NO. 58460**INCOME/LOSS BEFORE INCOME TAXES****Definition**

Net income before provision for income taxes, equity in net income of unconsolidated affiliates, minority shareholder's portion of net income, and extraordinary gains/losses.

ITEM NO. 58470**INCOME/LOSS AFTER INCOME TAXES****Definition**

Net income after income taxes but before equity in net income of unconsolidated affiliates, minority shareholders' portion of net income/loss and extraordinary gains/losses.

ITEM NO. 58480**NET INCOME/LOSS****Definition**

Net income represents the difference between all revenue and expenses, and gain and loss items for the reporting period.

ITEM NO. 61405**INTEREST BEARING DEBT****Definition**

This item covers both short and long term debt other than trade payables owed by the reporting entity to non-consolidated parent, subsidiary and affiliated corporations, affiliated joint ventures and partnerships, head office, directors, officers and individual shareholders in Canada and outside Canada (see item 24000 - Amounts Owing to Parent, Subsidiaries and Affiliates). The debt is interest-bearing.

Valuation

Loans denominated in foreign currency should be expressed in Canadian dollars using the exchange rate in effect on the balance sheet date.

Claims of affiliates should be shown at amortized value.

Inclusions

- a) loans and advances from affiliates
- b) dividends and other non-trade accounts and notes payable to affiliates

Exclusions

Trade payables - see item 22100 (Accounts Payable and Accrued Liabilities)

ITEM NO. 61407**NON-INTEREST BEARING DEBT****Definition**

This item covers both short and long term debt other than trade payables owed by the reporting entity to non-consolidated parent, subsidiary and affiliated corporations, affiliated joint ventures and partnerships, head office,

directors, officers and individual shareholders in Canada and outside Canada (see item 24000 - Amounts Owing to Parent, Subsidiaries and Affiliates). The debt does not bear interest.

Valuation

Loans denominated in foreign currency should be expressed in Canadian dollars using the exchange rate in effect on the balance sheet date.

Claims of affiliates should be shown at amortized value.

Inclusions

- a) loans and advances from affiliates

ITEM NO. 61600

TOTAL LONG-TERM INVESTMENTS

Definition

Long-term or permanent investments are investments (other than in parent, subsidiaries and affiliates) which the reporting entity's management intend to hold to maturity or for long-term growth.

Valuation

Shares should be shown at acquisition cost except for fixed-term equity investments. All other long-term investments, including fixed-term equity investments, should be shown at amortized cost. In cases where the investment value is permanently impaired and a write-down is recorded, the investment should be shown at the reduced book value and the corresponding write-down reflected in item 56200 (Write-Offs and Valuation Adjustments).

Inclusions

Portfolio investments, excluding marketable or short-term securities

Exclusions

- a) short-term or marketable securities - see appropriate short-term investment category
- b) stocks and bonds and advances to parent, subsidiaries and affiliates - see items in series 14000 (Investments in and Claims on Parent, Subsidiaries and Affiliates)
- c) inventory of securities on hand and to be sold long - see item 61810 (Inventory of Securities on Hand and to be Sold Long)

ITEM NO. 61700

TOTAL SECURITIES AND INVESTMENTS

Definition

This item covers an investment dealer's holdings of both inventories of securities and securities held as long-term investments.

Exclusions

- a) investments in and claims on affiliates - see item 14000 (Investments in and Claims on Parent, Subsidiaries and Affiliates)
- b) real estate held for income - see item 18320 (Real Estate Held for Income - Gross)

ITEM NO. 61810**INVENTORY OF SECURITIES ON HAND AND TO BE SOLD LONG****Definition**

This is an investment dealer's holdings of securities to be traded in the ordinary course of business. Also covered are short-term investments such as term deposits and finance, commercial and other short-term paper.

ITEM NO. 61910**TOTAL LIABILITIES****Definition**

This is the sum of obligations to parties other than holders of subordinated loans and notes.

ITEM NO. 61920**TOTAL DEBT CAPITAL AND SHAREHOLDERS' EQUITY****Definition**

This is the sum of the reporting entity's subordinated debt outstanding and the entity's owners' equity.

ITEM NO. 67000**TOTAL DEBT CAPITAL****Definition**

This item covers debt which has a lower priority of claims than other types of debt on the reporting entity's assets and/or income. Holders of such debt generally rank just ahead of shareholders in the event of liquidation of the reporting entity's assets.

Detail

ANNUAL SUPPLEMENT TO THE QUARTERLY SURVEY OF FINANCIAL STATEMENTS

CAPITAL LEASES

Explanation and Definitions for questions 1, 2 and 9

The classification of a lease depends on whether substantially all the benefits and risks of ownership are transferred from the lessor to the lessee. If they are not transferred, the lease is termed an "operating lease"; if they are, it is called a "capital lease" from the lessee's viewpoint, and a "sales-type" or "direct financing" lease for the lessor.

Under an operating lease, the lessor retains the leased assets on its books, depreciates it, and recognizes rental revenue as it becomes due. The lessee charges lease rentals to expense as incurred and its balance sheet is unaffected. Under a capital lease, the lessor recognizes, in essence, a loan receivable (a sale and then a loan receivable for a sales-type lease) and records finance income. The lessee records the acquisition of an asset, which is then depreciated on a basis consistent with assets of a similar nature, and the incurrence of an obligation similar to a loan. Lease payments are shown as a blend of interest expense and repayment of principal.

Questions 1, 2 and 9 relate only to those accounts maintained by a lessee for capital leases:

1. Assets acquired under capital leases - year-end balance:

The amount requested is the depreciated book value of assets acquired under capital leases. (In the quarterly survey of financial statements, this amount should have been reported as part of fixed assets in account 18310.)

2. Capital lease obligations - year-end balance:

This amount represents the year-end balance of the present value of the obligation under capital leases. (In the quarterly survey of financial statements, this amount should have been reported as part of non-mortgage loans or "other loans" - account 25180.)

9. (a) Rental or lease payments for the year:

This is the total payments made by the lessee to the lessor under a capital lease. The payments consist of two components, interest expense and reductions of principal. Expenses related to the operation and maintenance of leased machinery and equipment are not to be included here.

9. (b) Interest expense charged to current operations:

This represents that portion of the rental or lease payments charged to interest expense for the year.

9. (c) Depreciation charged to current operations:

This represents the depreciation expense related to assets acquired under capital leases.

DEFERRED CHARGES AND PROVISION FOR FUTURE OBLIGATIONS

Explanation and Definitions for questions three to six

Purpose

Business profits as reported on the quarterly survey of financial statements are used in the estimate of National Income. National Income is one of the ways that economic production for all of Canada is measured. The System of National Accounts (SNA) has a conceptual framework and set of definitions which are standardized for all sectors of the economy. Thus, the measurement of business income or profits is governed by the definitions of capital and current expenditures in the SNA. Capital expenditures relate to the purchases of fixed assets such as structures, buildings, machinery and equipment. All other expenditures are classified as current and, as such, are deducted from revenues in the measurement of profits.

However, accounting policies used by business recognize what is sometimes referred to as allocation accounting. Under this concept, expenditures which are not capital in nature can be deferred and appear as balance sheet assets. These deferred charges and debits will be charged to operations in future periods. To comply with the SNA concepts of profit measurement, Statistics Canada annually adjusts reported profits by adding back to profits expenditures that are booked during the year as deferred charges or debits. This, in effect, transfers the original expenditure from the balance sheet to the income statement to become a charge against profits in the period in which they were incurred.

QUESTIONS THREE AND FOUR - DEFERRED CHARGES

Questions three and four ask for the necessary information to make the adjustment described above. Question three asks for the amounts booked during the year as deferred charges or deferred debits. Question four asks for the

amounts charged to current operations during the year, except amounts charged to current operations and reported in the quarterly questionnaires in the following expense accounts:

Account 52320 - Amortization of deferred charges

Account 56200 - Write-offs and valuation adjustments

Account 58310 - Extraordinary gains and losses

The reason for the exclusion of the above accounts is that the amounts reported in these accounts on the quarterly reports are already added back to profits on a quarterly basis. If the amounts were included in the answer to question four, the add-back to profits would be duplicated.

a) Deferred financing costs of new securities issues - Accounts 62110, 62210

Included in these accounts would be costs recognized in connection with the issuance of securities on the public market, such as bonds, debentures, and shares booked during the year as deferred charges/debits.

Such costs usually include items such as underwriters' fees and commissions, advertising, issuing a prospectus, and legal and accounting fees.

b) Deferred preproduction costs - Accounts 62120, 62220

Included in these accounts would be costs incurred in developing and preparing a facility or a business for operations booked during the year as deferred charges/debits.

Items that should be excluded from deferred preproduction costs (accounts 62120 and 62220) are:

1. Deferred charges related to the purchase of machinery and equipment that will eventually be transferred to a fixed asset account and classified as a capital expenditure
2. Prepaid expenses
3. Deferred research and development costs - see item (c)

c) Deferred research and development costs - Accounts 62130, 62230

Research and development costs relate to costs incurred in the following activities:

Research involves planned investigation undertaken with the hope of gaining new scientific or technical knowledge and understanding. Such investigation may or may not be directed towards a specific practical aim or application.

Development is the translation of research findings or other knowledge into a plan or design for new or substantially improved materials, devices, products, processes, systems or services prior to the commencement of commercial production or use.

QUESTIONS FIVE AND SIX - PROVISION FOR FUTURE OBLIGATIONS

Questions five and six relate to liabilities established to recognize costs and charges against the current period's profits. The obligation to pay such costs or the incurring of such expenditures will not take place until sometime in the medium- to long-term future. Question five asks for amounts credited to the liability accounts and charged to the current year's profits. The recognition of this event does not involve a cash transaction. Question six asks for amounts actually paid during the year related to costs that were previously recognized and expensed when the liabilities were booked in earlier periods. Amounts actually paid include cash paid and accounts payable. Amounts reported in item 5 will be added back to reported profits, while amounts reported in item 6 will be deducted from profits to comply with SNA accounting concepts.

Provision for pension costs, retirement benefits, deferred compensation related to current and former employees - Accounts 62310, 62410

Included in these accounts are costs associated with all types of formal or informal deferred compensation plans for current and former employees credited to the liability accounts and charged to the current year's profits. The recognition of this obligation does not involve a cash transaction.

Deferred compensation is restricted to retirement income and post-employment compensation. This account does include accruals and accounts payable classified as current liabilities.

Rental Revenue

Explanation and Definition for question seven

Rental revenue is required on an annual basis for the System of National Accounts. Accordingly, this question requests a split between rental revenue from all real estate properties (7 a), and rental revenue generated by other assets (7 b).

PROVISIONS FOR LOSSES, WRITE-DOWNS, AND WRITE-OFFS

Explanation and Definitions for question eight

Purpose

According to the definitions and concepts of business profits in the System of National Accounts (SNA), provision for losses related to financial assets such as accounts receivable, investments and loans are not recognized as charges against profits. Similarly, a provision for losses on discontinued operations is not considered a charge against profits. Therefore, to enable Statistics Canada to add these amounts back to profits annually, these charges are requested in column A. The actual write-offs of accounts previously set up as a provision or allowance are requested in column B.

Column A

Provisions charged to current operations during the year - Accounts 55400, 55873, 55871, 55872

The amounts requested in these accounts relate to all provisions for losses charged to current operations related to the uncollectability or the decline in value of accounts receivable, discontinued operations, investments, and loans. These charges to current operations are established by crediting a balance sheet valuation account.

Do not include in these accounts amounts that were reported in the following quarterly questionnaire expense accounts:

Account 56200 - Write-offs and valuation adjustments

Account 58310 - Extraordinary gains and losses

The reason for the exclusion of the above accounts is that the amounts reported in these accounts on the quarterly reports are already added back to profits.

Column B

Write-offs charged to balance sheet contra or valuation accounts - Accounts 71100, 71400, 71200, 71300

The amounts requested in these accounts relate to all write-offs of the categories of assets listed in 8(a), (b), (c) and (d) which cover accounts receivable, assets of discontinued operations, investments, and loans. These write-offs do not flow through the income statement as charges against profits. They represent a reduction in the asset account and an offsetting reduction in the related balance sheet valuation account.
