INTRODUCTION

AUTHORITY

The quarterly and annual surveys of financial statements are conducted under the authority of the Statistics Act, Revised, Statutes of Canada 1985, Chapter S19.

CONFIDENTIALITY

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported to this survey will be treated in confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.

PURPOSE OF THE QUARTERLY SURVEY

The data reported in the Quarterly Survey of Financial Statements is used to produce business financial statistics. The statistics are used in the national income and financial flow accounts, which are components of the Canadian System of National Accounts. The financial statements are aggregated to the industry level and are also published as a self-contained set of industry financial statistics. These statistics are available to the public and are used extensively by government, financial institutions, and industry associations.

TIMELINESS OF THE STATISTICS

Preliminary statistics must be prepared 45 calendar days after each calendar quarter to meet the deadlines for the release of the quarterly national accounts. To meet these dates the survey data must be received within 30 calendar days after the quarter.

Late response to the survey causes delays in the release of the statistics. Since the usefulness of the statistics declines significantly if the releases are delayed, it is important to respond to the survey on time.

REPORTING ENTITY

The term "reporting entity" referred to on the front page of the questionnaire means the business entity covered by the quarterly financial statements. It is important for Statistics Canada to know precisely what operations are covered in the report to ensure total and unduplicated survey coverage of all business activity in Canada.

In almost all cases reporting entities fall into one of the following three categories:

1. a single corporation
2. a consolidated family of corporations
3. a branch or division or part of a corporation

In cases where a corporation does not have any ownership and control relationships with other corporations, the reporting entity should be the single corporation. Families of corporations under common ownership and control should report a consolidated financial statement in the quarterly survey questionnaire, except for the following situations:

1. Foreign subsidiaries and foreign branches of Canadian corporations covering foreign operations are to be excluded.
2. Foreign parents of Canadian corporations are to be excluded to the extent that they do not have any of their own operations in Canada.
3. The family of corporations is not viewed as one economic unit, and consolidated financial statements are not prepared quarterly or annually.
4. The family of corporations whose major industrial activity is non-financial but include financial activities should report the two types of activities in separate reports. Included as "financial activities" are banking, lending, investing, securities brokerage and insurance. Insurance corporations that are part of a family should report separately.
5. The family of corporations covers diverse and independent industrial activities which are unrelated and organized as separate business segments for which separate financial statements are prepared. In such cases each business or business segment is to report separately. Each business must be capable of reporting separate financial statements including a complete balance sheet and income statement.

If a family of corporations does not consolidate the financial statements of the parent corporation, and the parent has operations in Canada or is resident in Canada, it will have to report separately to the Quarterly Survey of Financial Statements.

REPORTING ENTITY PROFILE

You may find a separate document enclosed with the questionnaire listing the corporations included in the reporting entity. This document should be reviewed carefully, corrected if necessary, and returned with the completed questionnaire to Statistics Canada. Subsidiaries and affiliates that are accounted for in the financial statements as a one-line consolidation or net investment, using the equity method, should be excluded from the list of corporations on the reporting entity profile.

The register of all businesses maintained by Statistics Canada includes a list of corporations which are referred to as legal entities. To facilitate the matching of the reporting entities to the list of legal entities on the business register, the quarterly survey describes the reporting entities in the profile document in terms of the legal names of the corporations included in the report.

JOINT VENTURES AND PARTNERSHIPS

The survey covers the activities of joint ventures and partnerships as separate businesses from those of the venturers or partners. Therefore, these businesses are surveyed as separate reporting entities. To avoid double counting of these businesses the investors, venturers, and partners should account for their investments using the cost or equity method. Complete or proportionate consolidations of joint ventures and partnerships should not be done for the Quarterly Survey of Financial Statements.

However, it is recognized in some cases that separate financial statements for the joint venture are not produced quarterly or annually and it is the practice of the venturers to account for their investment by consolidating their portion of the of the joint venture in their financial statements. In such cases the joint venture is not reported as a separate entity, but it is covered in the reports of the venturers.

FOREIGN OPERATIONS OF CANADIAN ENTERPRISES

Definition: Foreign operations of Canadian enterprises include all business conducted by establishments that are situated outside Canada, including foreign branches, foreign divisions and foreign offices.

Report income from foreign operations as a net amount in item number 58100, "Equity in Net Income of Unconsolidated Affiliates." The assets of the foreign operations should not be reported on a line-by-line basis, but rather as a net amount in item number 14120, "Investments in Subsidiaries and Affiliates Outside Canada."

FOREIGN SUBSIDIARIES OF CANADIAN ENTERPRISES

Foreign subsidiaries should always be excluded from line-by-line consolidation and should be reported in either item 14120, "Investments in Subsidiaries and Affiliates Outside Canada," where control or significant influence exists, or in item 15200, "Foreign Investments in Non-Affiliates," for portfolio investments. Income from foreign investments reported on the cost basis, i.e., portfolio investments, should be reported in item 47000, "Foreign Dividend and Interest Revenue." Investments reported on the equity basis should include the investor's share of earnings in item 58100, "Equity in Net Income of Unconsolidated Affiliates," with the corresponding adjustment to the investment account in item 14200, "Accumulated Earnings Less Dividends Received."

Dividends received from foreign investments reported on the equity basis are excluded from the income statement and should be reported as supplementary item 75200, "Dividends Received from Corporations Accounted for on the Equity Method."

CLASSIFICATION OF CAPITAL AND HEAD OFFICE ACCOUNTS OF UNINCORPORATED REPORTING ENTITIES

Definition: Unincorporated entities include partnerships, joint ventures and Canadian branch operations of foreign corporations.

Temporary loans and advances that are intended to be repaid should be classified as a liability in item 24000, "Amounts Owing to Parent, Subsidiaries and Affiliates." Investments of capital of a permanent nature should be classified as owner's capital in item 31000, "Share Capital." Undistributed profits of the entity should be reported separately in item 38000, "Retained Earnings."

Summary:

Loans and advances to be repaid - item 24000

Permanent capital investment - item 31000

Undistributed profits - item 38000

COMPARABILITY AND PREDICTIVE VALUE OF QUARTERLY FINANCIAL STATISTICS

The quarterly statistics produced from this survey are used to analyze short- and long-term cyclical trends. They are also used as leading indicators to forecast future economic activity and business profits. In order for the statistics to be useful they should be free of volatile quarter to quarter changes which are caused by year-to-date bookkeeping adjustments included in the current quarter estimates. As well, changes in accounting policies and methods, changes in the corporations included in the financial statements, and changes resulting from mergers or amalgamations and other structural adjustments affect quarter to quarter comparability of the statistics.

Quarter to quarter changes in items such as depreciation, amortization, interest expense, income taxes and capital expenditures caused by year-to-date adjustments included in the current quarter should be documented in the questionnaire and brought to the attention of the Statistics Canada survey staff. These adjustments are reallocated to previous quarters in the current year to produce a better estimate of quarterly trends. As well, any other changes in the current quarter's financial statements that would render them incomparable with those of the previous quarter should be documented either in the reporting entity section on the front page of the questionnaire or on an insert.

YEAR-END AND PRIOR YEAR'S ADJUSTMENTS

One of the objectives of the Quarterly Survey of Financial Statements is to get as accurate as possible a measurement of quarterly revenues, expenses, and profits. It is recognized that interim financial statements do in fact contain a number of estimates that are revised at year-end to actual amounts. Because of the preliminary nature of the interim financial statements, the quarterly statistical program provides for revisions to the statistics on an on-going basis. Revenues and expenses reported in the fourth fiscal quarter could include year-end adjustments from preliminary estimates to actual amounts for the year. The accounts could also include year-end accruals and reclassifications that are not made during the year in the interim financial statements. The adjustments can materially affect the fourth quarter revenue and expense accounts, which in turn could distort the fourth quarter profits. To eliminate the distortions respondents, are asked to report year-end adjustments in excess of \$500 thousand in the appropriate section of the fourth quarter questionnaire.

Statistics Canada's annual financial statistics program uses the quarterly revenues, expenses, and profit accounts as reported to the quarterly survey to produce annual accounts. This eliminates the need to conduct an annual survey in addition to the quarterly survey. The sum of the accounts of the four quarters should agree with the annual accounts as published in the annual financial statements. Therefore, it is important to know about all year-end adjustments. There are situations where year-end adjustments have not been entered in the company books prior to the preparation of the Statistics Canada fourth quarter financial statement report. In these cases the reported fourth quarter closing balance of retained earnings will not agree with the year-end balance in the company's financial statements. In the report of the first quarter of the following fiscal year this imbalance will appear as an adjustment to retained earnings. This prior year's adjustment should be reported in the appropriate section of the first quarter questionnaire in the year-end and prior year's adjustments statement. In some cases the year-end adjustments may not be finalized until the second quarter subsequent to the year-end. In these cases the applicable information will be reported in the questionnaire for the second fiscal quarter.

ACCOUNTING PRINCIPLES - FINANCIAL STATEMENT PRESENTATION AND DISCLOSURE

The quarterly financial statements questionnaire is designed to collect structured information required for the industry financial statistics program, and the system of national economic accounts. The financial statements detail and supplementary questions and schedules which are not normally found in published business financial statements are required to make the necessary conceptual adjustments and to calculate the Statement of Change in Financial Position as prescribed by the program.

Generally, the financial statements should be prepared in accordance with the codified generally accepted accounting principles (GAAP) as set out in the Canadian Institute of Chartered Accountants (C.I.C.A.) Handbook.

Specific requirements of the survey that depart from the C.I.C.A. Handbook, other industry specific accounting principles, and financial statement disclosure standards are as follows:

Balance Sheet

- i) Bank account credit balances (overdrafts) should not be offset against bank account debit balances. All credit balances should be shown as liabilities.
- ii) Investments in subsidiaries, affiliates and joint ventures on the equity method are separated into two accounts, investment in the acquired shares, and post-acquisition accumulated equity in the investee.
- iii) Sinking funds related to funded debt should be shown separately as an asset in the investment category, not netted against the liability.
- iv) Fixed assets include assets leased to others under an operating lease, capitalized leases (lessee), and construction-in-progress (new capital projects). This category excludes intangible assets.
- v) Deferred Income Taxes: All balance sheet accounts including credit and debit balances, short and long term, should be shown net in one line on the liability side of the balance sheet in cell 27000.

Retained Earnings

- i) Prior Period Adjustments are to be included in cell 38700, "Other Additions or Deductions."

Income Statement

- i) Expenses related to the amortization of deferred debits and deferred charges should be included in cell 52320.
- ii) All unrealized losses, writedowns, and writeoffs of assets, including adjustments to net realizable values, should be included in cell 56200.
- iii) All realized gains and losses related to the disposal of investments, loans and capital assets (except extraordinary items) should be included in cell 48000.
- iv) Charges related to allowances and provisions for declines in values of assets should be included in cell 55000, "Other Expenses."
- v) Profits or losses accruing to minority shareholders of consolidated subsidiaries should include the minority shareholders' portion of extraordinary gains and losses of the subsidiary. This means that the entire extraordinary gain or loss attributable to the subsidiary must be included in the extraordinary gain or loss line item of the consolidated income statement.

Real Estate Industry

A common practice of this industry is to capitalize or defer operating expenses and revenues of new properties until they are substantially occupied. For purposes of the quarterly financial statement survey, all such operating revenues and expenses should be included in their appropriate categories in the income statement.

Discontinued Operations

Gains or losses from discontinued businesses related to operations should be disclosed as normal operations showing detailed revenues and expenses separately in the prescribed accounts in the income statement. As well, the balance sheet items related to discontinued operations should be shown separately in their respective accounts.

Estimated gains or losses forecasted from a future disposal of assets of a discontinued operation are classified as an unrealized gain or loss, and as such should be shown in the revaluation account (cell 56200).

ITEM NO. 11000**CASH AND DEMAND DEPOSITS****Definition**

Cash and demand deposits consist of coins, bank notes, money orders, postal notes, cheques, accepted sight drafts, demand and notice deposit balances with banks and other financial institutions. Cheques issued against the reporting entity's accounts but not yet cleared should be shown in item 22180 (Other Accounts Payable). If the reporting entity has more than one deposit account, debit balances should not be netted against credit balances. Credit balances should be classified as overdrafts in items 25110 and 25180 (loans and overdrafts).

Valuation

Cash items and deposit balances should be valued at their face value at the balance sheet date.

Foreign currency should be expressed in terms of Canadian dollars using the exchange rate at the balance sheet date.

Inclusions

- a) demand, notice and savings deposits
- b) restricted demand deposits

Exclusions

- a) bank overdrafts - see item 25110 (Loans and Overdrafts with Chartered Bank Branches in Canada)

ITEM NO. 12100

ACCOUNTS RECEIVABLE AND ACCRUED REVENUE

Definition

All claims against debtors arising from the sale of goods and services. Also included is accrued revenue receivable.

Valuation

All accounts receivable should be shown gross before deducting allowance for doubtful accounts (item 12800).

Inclusions

- a) Insurance Related Receivables
 - i) insurance premiums receivable, and amounts due from agents, other insurance companies and other branches and funds
 - ii) promissory notes and instalments receivable arising from insurance operations
- b) interest, dividend and other investment income receivable
- c) other accounts receivable
 - i) receivables in connection with the sale of investments and fixed assets
 - ii) income taxes recoverable
 - iii) balance recoverable represented by the excess of GST input tax credits claimed over GST collections

Exclusions

- a) loans receivable - see item 16000 (Mortgage Loans to Non-Affiliates) or items 15180 and 15280 (Other investments)
- b) other accounts receivable from affiliates - see item 14300 (Loans, Advances, Mortgages, Notes, Bonds and Other Claims of Affiliates)
- c) balance owing represented by the excess of GST collections over GST input tax credits claimed - see item 22100 (Accounts Payable and Accrued Liabilities)

Detail

- 12100 Accounts Receivable and Accrued Revenue
- 12131 Accounts Receivable
- 12135 Investment Income Due and Accrued and Other Receivables

ITEM NO. 12800

ALLOWANCE FOR DOUBTFUL ACCOUNTS

Definition

The allowance for doubtful accounts is a deduction from the book value of accounts receivable to reduce them to the estimated realizable value.

ITEM NO. 14000**INVESTMENTS IN AND CLAIMS ON PARENT, SUBSIDIARIES AND AFFILIATES****Definition**

This category covers all investments in and claims on non-consolidated parent, affiliated and subsidiary corporations, affiliated joint ventures and partnerships, head office, directors, officers and individual shareholders.

Subsidiary companies are corporations directly controlled (i.e., over 50% of the voting shares held) by the reporting entity.

Affiliated companies of the reporting entity are corporations which are:

- a) effectively controlled or whose operations are significantly influenced by the reporting entity despite its holding less than the majority of voting shares;
- b) controlled or significantly influenced by another company under the reporting entity's control;
- c) within the same family of corporations under common ownership and control.

Valuation

Shares should be valued at acquisition cost and other investments should be shown at amortized cost. In cases where the investment value is permanently impaired and a write-down is recorded, this write-down will be reflected in item 56200 (Write-Offs and Valuation Adjustments).

If the equity method is used, the cost of shares are shown separately in item 14100 from the accumulated earnings less dividends received which are shown in item 14200.

Inclusions

Claims:

- a) loans (including mortgage loans), notes and advances to "affiliates," and holdings of debt instruments issued by non-consolidated parent, subsidiary and affiliated corporations, head office, and affiliated joint ventures and partnerships
- b) loans, notes and advances to directors, officers, and individual shareholders
- c) dividends and other non-trade receivables from non-consolidated parent, subsidiary and affiliated corporations, head office, and affiliated joint ventures and partnerships

Exclusions

- a) insurance related receivables - see item 12131 (Accounts Receivable)

Detail

14000	Investments in and Claims on Parent, Subsidiaries and Affiliates
14100	Cost of Shares
14110	Canadian Corporations
14120	Foreign Corporations
14200	Accumulated Earnings Less Dividends Received
14300	Loans, Advances, Mortgages, Notes, Bonds and Other Claims
14310	Canadian Companies, Officers and Shareholders
14320	Foreign Companies, Officers and Shareholders
14400	Investment in Net Assets of Foreign Offices (see separate definition)

ITEM NO. 14400**INVESTMENT IN NET ASSETS OF FOREIGN OFFICES****Definition**

This represents the difference between the value of the assets and liabilities related to business conducted by a Canadian company's unincorporated branches and offices located outside Canada. (Please note that this differs from the Office of the Superintendent of Financial Institutions' assets and liabilities held for business outside Canada, the determination of which corresponds to the location of the risk insured.)

ITEM NO. 15000**INVESTMENTS IN NON-AFFILIATES****Definition**

This category covers investments in securities issued by non-affiliated entities.

Valuation

Except as noted below, debt securities and fixed term equity securities should be valued at acquisition cost or at amortized cost. Other equity securities should be valued at acquisition cost.

In cases where the investment value is permanently impaired and a write-down is recorded, this write-down will be reflected in item 56200 (Write-Offs and Valuation Adjustments).

Exclusions

- a) loans receivable - see item 16000 (Mortgage Loans to Non-Affiliates)
- b) investments in affiliates - see item 14000 (Investments in and Claims on Parent, Subsidiaries and Affiliates)
- c) term deposits, guaranteed investment certificates, term deposit certificates, bearer deposit notes and swapped deposits - see item 11600 (Term Deposits)

Detail

15000	Investments in Non-Affiliates
15100	Canadian Investments in Non-Affiliates
15110	Government of Canada Treasury Bills (see separate definition)
15120	Bankers' Acceptances and Finance and Other Short-Term Paper (see separate definition)
15130	Government of Canada Debt (see separate definition)
15140	Provincial and Municipal Government Debt (see separate definition)
15150	Corporate Bonds and Debentures (see separate definition)

15180	Other Canadian Investments (see separate definition)
15200	Foreign Investments (see separate definition)

ITEM NO. 15110**GOVERNMENT OF CANADA TREASURY BILLS****Definition**

This item covers investments in short-term Government of Canada obligations issued at a discount in lieu of interest. These obligations may be issued in Canadian or other currencies.

Valuation

Canada treasury bills should be shown at acquisition cost. Some investors, however, record this item at amortized cost.

Foreign currency should be expressed in terms of Canadian dollars using the exchange rate at the balance sheet date.

Inclusions

- a) Canada bills (bills issued in U.S. currency)

ITEM NO. 15120**BANKERS' ACCEPTANCES AND FINANCE AND OTHER SHORT-TERM PAPER****Definition**

This category covers investments in short-term debt securities issued by provincial and municipal governments, financial institutions and industrial corporations resident in Canada.

Short-term securities are generally those with an original term to maturity of less than one year.

Valuation

These investments should be shown at acquisition cost. However, since short-term paper is generally purchased at a discount or premium and recorded at amortized cost, amortized cost is also acceptable.

Inclusions

- a) Canadian provincial and municipal government short-term bills and notes
- b) financial and commercial paper
- c) bankers' acceptances

Exclusions

- a) Government of Canada treasury bills - see item 15110 (Government of Canada Treasury Bills)
- b) term deposits, swapped deposits, guaranteed investment certificates, deposit certificates and collateral deposits - see item 11600 (Term Deposits)
- c) demand and notice deposits - see item 11000 (Cash and Demand Deposits)
- d) share options and warrants - see item 15160 or 15230 (Corporate Shares)
- e) foreign finance and other short-term paper - see item 15200 (Foreign Investments)
- f) bearer deposit notes - see item 11600 (Term Deposits)

ITEM NO. 15130**GOVERNMENT OF CANADA DEBT****Definition**

This item covers investments in debt securities, other than treasury bills, issued by the Government of Canada.

Valuation

These investments should be shown at amortized cost.

Inclusions

- a) Government Business Enterprises' debt guaranteed by the Government of Canada

Exclusions

- a) debt issued by government enterprises and not guaranteed by the Government of Canada - see item 15150 (Corporate Bonds and Debentures)
- b) Government of Canada treasury bills and short-term notes - see item 15110 (Government of Canada Treasury Bills)
- c) debt issued by private sector enterprises and guaranteed by the Government of Canada - see item 15150 (Corporate Bonds and Debentures)
- d) debt issued by provincial and municipal governments and guaranteed by the Government of Canada - see item 15140 (Provincial and Municipal Government Debt)
- e) accrued interest receivable - see item 12135 (Investment Income Due and Accrued and Other Receivables)

ITEM NO. 15140**PROVINCIAL AND MUNICIPAL GOVERNMENT DEBT****Definition**

This item covers investments in debt securities, except treasury bills and notes with original terms to maturity of less than one year, issued by Canadian provincial and municipal governments.

Also included are debt securities issued by provincial and municipal government business enterprises guaranteed by the provincial or municipal governments.

Valuation

These investments should be shown at amortized cost.

Inclusions

- a) provincial and municipal government business enterprise debt guaranteed by provincial and/or municipal governments
- b) debt issued by school boards, commissions and districts

ITEM NO. 16000

MORTGAGE LOANS TO NON-AFFILIATES

Definition

Mortgage loans and sales agreements receivable are loans made to purchase real estate contingent upon the borrowers' conveying title to the underlying real property to the lender as security for the loan.

Mortgages on properties which are partially residential and partially non-residential should be classified according to the property's major use. If this is not possible, classify the mortgages involved as residential.

Valuation

Mortgages and sales agreements should be shown at amortized cost before deducting provision for mortgage loan losses (item 19810).

Inclusions

- a) advances or draws as well as completed loans
- b) mortgages purchased from another investor
- c) mortgages assumed by seller of real estate

Exclusions

- a) mortgage loans to affiliates - see item 14300 (Loans, Advances, Mortgages, Notes, Bonds and Other Claims to Affiliates)
- b) mortgage bonds and debentures - see item 15150 (Corporate Bonds and Debentures)
- c) accrued interest receivable - see item 12135 (Investment Income Due and Accrued and Other Receivables)

ITEM NO. 18310**LAND AND DEPRECIABLE ASSETS - GROSS****Definition**

These are tangible and intangible assets that are:

1. held for use in the production or supply of goods and services, for rental to others (except real estate), or for administrative purposes and may include items held for the maintenance or repair of such assets;
2. have been acquired or constructed with the intention of being used on a continuing basis;
3. not intended for sale in the ordinary course of business.

Also included are assets acquired under capital leases which are leases where all the benefits and risks of ownership of leased property are transferred from the lessor to the lessee. Leased properties include land, buildings, machinery and equipment.

Also included are properties which the reporting entity has classified as non-productive or non-operating (i.e., not part of its fixed assets) and is in the process of divesting itself of them.

Valuation

Land and depreciable assets should be valued at acquisition cost including interest capitalized, or allowance for funds used for construction, plus the cost of betterments, less write-downs to reflect permanent impairment.

Depreciable assets should be reported before deducting depreciation.

Inclusions

- a) land, roads, bridges and towers
- b) buildings and other structures
- c) leasehold improvements
- d) machinery and equipment
- e) assets acquired under capital leases

ITEM NO. 18320**REAL ESTATE HELD FOR INCOME - GROSS****Definition**

Investments in land, buildings and leaseholds for the production of income. Properties held for both own use and production of income should be apportioned between real estate investment and fixed assets according to the actual use of the property. If amounts are not material, however, such properties may be classified in their entirety as investment or fixed asset according to their major use.

Valuation

Real estate investment should be valued at acquisition cost including interest capitalized and cost of betterments, less write-downs to reflect permanent impairment. Amounts reported should be before deducting depreciation. Also, do not net encumbrances from the value of real estate - report encumbrances under account 25500 (Mortgage Loans).

Detail

- 18320 Real Estate Held for Income - Gross
- 18322 Canadian
- 18326 Foreign

ITEM NO. 18350**ACCUMULATED DEPRECIATION****Definition**

This is the accumulated periodic allocations of the cost to current expenses of real estate held for income and fixed assets.

ITEM NO. 19880**OTHER ASSETS****Definition**

This item covers all assets not elsewhere classified.

Valuation

Other assets should be valued at acquisition or amortized cost.

Inclusions

- a) prepaid expenses and deferred charges - expenditures which are expected to yield benefits in the future and are carried forward to be allocated to current operations in subsequent periods, e.g., amounts paid for goods and services not yet received, prepaid insurance and rents, discount and expense on bond issues, organizational expense, research and development costs, preproduction costs and deferred pension costs
- b) deposits and advances - amounts lodged with or payments made to others to be either charged to expense or refunded at a later period, e.g., deposits on contracts and tenders, downpayments, and advances to suppliers
- c) other unamortized deferred debits
- d) intangible assets

Exclusions

- a) deferred policy acquisition expenses - see item 19200 (Deferred Policy Acquisition Expenses)

ITEM NO. 22100**ACCOUNTS PAYABLE AND ACCRUED LIABILITIES****Definition**

Accounts payable covers all claims by creditors arising from the purchase of goods and services. Also included are accrued liabilities and amounts owing to governments, except corporate income taxes.

Inclusions

- a) Insurance Related Accounts Payable
 - i) amounts due to insurance agents and brokers, other insurance companies, parent, subsidiaries and affiliates, and other branches and funds arising from insurance
 - ii) insurance premiums payable to policyholders
- b) Other Accounts Payable

ITEM NO. 25110**LOANS AND OVERDRAFTS WITH CHARTERED BANK BRANCHES IN CANADA****Definition**

Bank loans refer to funds lent by chartered banks to the reporting entity other than through mortgage loan contracts or the banks' purchase of the reporting entity's securities. These loans may be demand or time loans and, within these categories, secured or unsecured.

Valuation

Loans denominated in foreign currency should be expressed in Canadian dollars using the exchange rate in effect on the balance sheet date.

Inclusions

- a) overdrafts on deposit accounts as shown in the banks' records
- b) chattel or collateral mortgages
- c) exercised lines of credit

Exclusions

- a) mortgage loans - see item 25500 (Mortgage Loans)
- b) outstanding cheques - see item 22100 (Accounts Payable and Accrued Revenue)
- c) loans from a parent, subsidiary or affiliate - see item 24000 (Amounts Owing to Parent, Subsidiaries and Affiliates)
- d) loans from foreign branches of Canadian chartered banks - see item 25180 (Loans and Overdrafts with Others)

ITEM NO. 25180**LOANS AND OVERDRAFTS WITH OTHERS****Definition**

- b) mortgages due to affiliates - see item 24000 (Amounts Owing to Parent, Subsidiaries and Affiliates)

ITEM NO. 26200**UNEARNED PREMIUMS****Definition**

Unearned premiums is that portion of premiums received related to the unexpired portion of insurance policies at any date.

Valuation

Unearned premiums should be presented at 100%. It should include unearned premiums on reinsurance assumed.

Inclusions

- a) unexpired portion of deposit premiums or reinsurance premiums received

Exclusions

- a) premiums received in advance - see item 29000 (Other Liabilities)

ITEM NO. 26300**ADDITIONAL POLICY PROVISIONS****Definition**

These are provisions for losses that the Federal Office of the Superintendent of Financial Institutions requires for risks covered by certain types of contract (e.g., fidelity, surety, nuclear, mortgage).

ITEM NO. 26500**PROVISION FOR POLICYHOLDER DIVIDENDS****Definition**

Dividends expected to be paid to participating policyholders as a result of savings or surpluses arising from differences between assumed and actual mortality and morbidity rates, claims experience, investment income, gains/losses from the sale of investments, and expenses. Also included are provisions for experience rating refunds. These are analogous to provisions for policyholder dividends except that they relate to group insurance policies.

ITEM NO. 26700**DEPOSITS RECEIVED ON REINSURANCE CEDED****Definition**

Cash deposits held by the reporting entity from other insurers on insurance business ceded to them.

Exclusions

- a) deposits received on reinsurance ceded where such deposits cannot be used by the ceding insurer should be excluded from the reporting entity's financial statements

ITEM NO. 26811**UNEARNED COMMISSIONS****Definition**

Unearned commissions arise in cases where, for a particular line of business, commission revenue on reinsurance ceded exceeds commission expense on direct and assumed business.

Valuation

Unearned commissions for each line of business should be calculated separately and the amount in one line of business should not be reduced by the amount of deferred commissions in other lines.

ITEM NO. 27000**DEFERRED INCOME TAXES****Definition**

The excess or deficiency of income taxes payable based on taxable income in comparison to income taxes based on accounting income. The differences in income measurement between taxable income and accounting income are related to the timing of recognition of revenues and expenses.

This account represents the accumulated amount by which income taxes charged in the accounts have been increased or decreased as a result of timing differences.

Inclusions

- a) all deferred income tax debits and credits arising from use of the "income tax allocation method"

Exclusions

- a) income taxes payable based on taxable income - see item 23000 (Income Taxes Payable)

ITEM NO. 29000**OTHER LIABILITIES****Definition**

This item covers liabilities not elsewhere classified.

Inclusions

- a) advances received, deferred income, unearned revenue (except unearned insurance premiums - see item 26200, and unearned commissions - see item and 26811) and progress billings

- f) unearned commissions - see item 26811 (Unearned Commissions)

ITEM NO. 31000**SHARE CAPITAL****Definition**

Share capital represents the ownership interest in a company as authorized by its instrument of incorporation. It covers all classes of share capital.

Valuation

Share capital issued and outstanding should be stated at par value or, if there is no par value, their stated value.

Inclusions

- a) common or ordinary shares
- b) preferred shares: cumulative, participating, non-cumulative, term, redeemable

Exclusions

- a) head office accounts - see item 35250 (Head Office Account)
- b) contributed surplus - see item 33000 (Contributed Surplus)
- c) earned surplus - see item 35210 (Earned Surplus)

Detail

31000 Share Capital
 31100 Preferred Shares
 31200 Common Shares

ITEM NO. 33000**CONTRIBUTED SURPLUS****Definition**

Contributed surplus represents that portion of paid-in capital (i.e. contributed capital) arising from:

- a) premiums received on the issue of par value shares
- b) that portion of no par value shares issued that have not been classified as part of share capital
- c) proceeds of sale of donated shares
- d) profit on forfeited shares
- e) redemption or conversion of shares at an amount different from that set up as share capital
- f) donations of capital

Exclusions

- a) undistributed earnings - see item 35210 (Earned Surplus) and 35250 (Head Office Account)
- b) share capital - see item 31000 (Share Capital)

ITEM NO. 35000**RETAINED EARNINGS/HEAD OFFICE ACCOUNT****Definition**

Retained earnings refers to the accumulated undistributed earnings derived from all sources, including capital or extraordinary gains and losses. Retained earnings may be appropriated (i.e., set aside at the discretion of management or in accordance with the requirements of a statute, by-law, trust indenture or other agreement for a specific or general purpose) or unappropriated. Both are included here.

In general, the unappropriated portion of retained earnings is usually labelled simply as "retained earnings." Thus, if an industry's questionnaire contains separate accounts for appropriated retained earnings, the "retained earnings" covered by the Statement of Retained Earnings refers only to unappropriated retained earnings.

Head office account represents the investment (in terms of capital and operating balances) a foreign company has in an unincorporated branch operating in Canada. In instances where a report covers less than an entire Canadian incorporated company, this account represents the head office's claim on the reporting unit.

Inclusions

a) the undistributed profits portion of the head office accounts and capital accounts of unincorporated entities

Exclusions

- a) contributed surplus - see item 33000 (Contributed Surplus)
- b) share capital - see item 31000 (Share Capital)
- c) share capital - see item 31000 (Share Capital)
- d) permanent capital of unincorporated entities - see item 31000 (Share Capital)

ITEM NO. 38900**PRIOR PERIOD ADJUSTMENTS****Definition**

This item does not pertain to gains or losses or adjustments of revenue or expense related to prior quarters of current fiscal year. If material, these type of quarter adjustments should be incorporated in a revised version of a prior quarter income statement.

These gains or losses are:

1. specifically identified with and directly related to the business activities of particular prior years;
2. not attributable to economic events occurring subsequent to such prior years;
3. arising primarily from decisions or determinations by persons other than management or owners; and
4. not reasonably estimable prior to such decisions or determination.

ANNUAL SUPPLEMENT TO THE QUARTERLY SURVEY OF FINANCIAL STATEMENTS

CAPITAL LEASES

Explanation and Definitions for questions 1, 2 and 9

The classification of a lease depends on whether substantially all the benefits and risks of ownership are transferred from the lessor to the lessee. If they are not transferred, the lease is termed an "operating lease," if they are, it is called a "capital lease" from the lessee's viewpoint, and a "sales-type" or "direct financing" lease for the lessor.

Under an operating lease, the lessor retains the leased assets on its books, depreciates it, and recognizes rental revenue as it becomes due. The lessee charges lease rentals to expense as incurred and its balance sheet is unaffected. Under a capital lease, the lessor recognizes, in essence, a loan receivable (a sale and then a loan receivable for a sales-type lease) and records finance income. The lessee records the acquisition of an asset, which is then depreciated on a basis consistent with assets of a similar nature, and the incurrence of an obligation similar to a loan. Lease payments are shown as a blend of interest expense and repayment of principal.

Questions 1, 2 and 9 relate only to those accounts maintained by a lessee for capital leases:

1. Assets acquired under capital leases - year-end balance:

The amount requested is the depreciated book value of assets acquired under capital leases. (In the Quarterly Survey of Financial Statements, this amount should have been reported as part of fixed assets in account 18310.)

2. Capital lease obligations - year-end balance:

This amount represents the year-end balance of the present value of the obligation under capital leases. (In the Quarterly Survey of Financial Statements, this amount should have been reported as part of "loans and overdrafts with others" - account 25180.)

9. (a) Rental or lease payments for the year:

This is the total payment made by the lessee to the lessor during the year under a capital lease. The payments consist of two components, interest expense and reductions of principal. Expenses related to the operation and maintenance of leased machinery and equipment are not to be included here.

9. (b) Interest expense charged to current operations:

This represents that portion of the rental or lease payments charged to interest expense for the year.

9. (c) Depreciation charged to current operations:

This represents the current year depreciation expense related to assets acquired under capital leases.

DEFERRED CHARGES AND PROVISION FOR FUTURE OBLIGATIONS

Explanation and Definitions for questions three to six

Purpose

Business profits as reported on the quarterly survey of financial statements are used in the estimate of National Income. National Income is one of the ways that economic production for all of Canada is measured. The System of National Accounts (SNA) has a conceptual framework and set of definitions which are standardized for all sectors of the economy. Thus, the measurement of business income or profits is governed by the definitions of capital and current expenditures in the SNA. Capital expenditures relate to the purchases of fixed assets such as structures, buildings, machinery and equipment. All other expenditures are classified as current and, as such, are deducted from revenues in the measurement of profits.

However, accounting policies used by business recognize what is sometimes referred to as allocation accounting. Under this concept, expenditures which are not capital in nature can be deferred and appear as balance sheet assets. These deferred charges and debits will be charged to operations in future periods. To comply with the SNA concepts of profit measurement, Statistics Canada annually adjusts reported profits by adding back to profits expenditures that are booked during the year as deferred charges or debits. This, in effect, transfers the original expenditure from the balance sheet to the income statement to become a charge against profits in the period in which they were incurred.

QUESTIONS THREE AND FOUR - DEFERRED CHARGES

Questions three and four ask for the necessary information to make the adjustment described above. Question three asks for the amounts booked during the year as deferred charges or deferred debits. Question four asks for the amounts charged to current operations during the year, except amounts charged to current operations and reported in the quarterly questionnaires in the following expense accounts:

Account 52320 - Amortization of deferred charges

Account 56200 - Write-offs and valuation adjustments

Account 58310 - Extraordinary gains and losses

The reason for the exclusion of the above accounts is that the amounts reported in these accounts on the quarterly reports are already added back to profits on a quarterly basis. If the amounts were included in the answer to question four, the add-back to profits would be duplicated.

a) Deferred financing costs of new securities issues - Accounts 62110, 62210

Included in these accounts would be costs recognized in connection with the issuance of securities on the public market, such as bonds, debentures, and shares booked during the year as deferred charges/debits. Such costs usually include items such as underwriters' fees and commissions, advertising, issuing a prospectus, and legal and accounting fees.

b) Deferred preproduction costs - Accounts 62120, 62220

Included in these accounts would be costs incurred in developing and preparing a facility or a business for operations booked during the year as deferred charges/debits.

Items that should be excluded from deferred preproduction costs (accounts 62120 and 62220) are:

1. Deferred charges related to the purchase of machinery and equipment that will eventually be transferred to a fixed asset account and classified as a capital expenditure
2. Prepaid expenses
3. Deferred research and development costs - see item (c)

c) Deferred research and development costs - Accounts 62130, 62230

Research and development costs relate to costs incurred in the following activities:

Research involves planned investigation undertaken with the hope of gaining new scientific or technical knowledge and understanding. Such investigation may or may not be directed towards a specific practical aim or application.

Development is the translation of research findings or other knowledge into a plan or design for new or substantially improved materials, devices, products, processes, systems or services prior to the commencement of commercial production or use.

QUESTIONS FIVE AND SIX - PROVISION FOR FUTURE OBLIGATIONS

Questions five and six relate to liabilities established to recognize costs and charges against the current period's profits. The obligation to pay such costs or the incurring of such expenditures will not take place until sometime in the medium- to long-term future. Question five asks for amounts credited to the liability accounts and charged to the current year's profits. The recognition of this event does not involve a cash transaction. Question six asks for amounts actually paid during the year related to costs that were previously recognized and expensed when the liabilities were booked in earlier periods. Amounts actually paid include cash paid and accounts payable. Amounts reported in item 5 will be added back to reported profits, while amounts reported in item 6 will be deducted from profits to comply with SNA accounting concepts.

Provision for pension costs, retirement benefits, deferred compensation related to current and former employees - Accounts 62310, 62410

Included in these accounts are costs associated with all types of formal or informal deferred compensation plans for current and former employees credited to the liability accounts and charged to the current year's profits. The recognition of this obligation does not involve a cash transaction.

Deferred compensation is restricted to retirement income and post-employment compensation. This account does not include accruals and accounts payable classified as current liabilities.

Rental Revenue

Explanation and Definition for question seven

Rental revenue is required on an annual basis for the System of National Accounts. Accordingly, this question requests a split between rental revenue from all real estate properties (7 a), and rental revenue generated by other assets (7 b).

PROVISIONS FOR LOSSES, WRITE-DOWNS, AND WRITE-OFFS

Explanation and Definitions for question eight

Purpose

According to the definitions and concepts of business profits in the System of National Accounts (SNA), provision for losses related to financial assets such as accounts receivable, investments and loans are not recognized as charges against profits. Similarly, a provision for losses on discontinued operations is not considered a charge against profits. Therefore, to enable Statistics Canada to add these amounts back to profits annually, these charges are requested in column A. The actual write-offs of accounts previously set up as a provision or allowance are requested in column B.

Column A

Provisions charged to current operations during the year - Accounts 55400, 55873, 55871, 55872

The amounts requested in these accounts relate to all provisions for losses charged to current operations related to the uncollectability or the decline in value of accounts receivable, discontinued operations, investments, and loans. These charges to current operations are established by crediting a balance sheet valuation account.

Do not include in these accounts amounts that were reported in the following quarterly questionnaire expense accounts:

Account 62000 - Write-offs and valuation adjustments

Account 58310 - Extraordinary gains and losses

The reason for the exclusion of the above accounts is that the amounts reported in these accounts

Column B

Write-offs charged to balance sheet contra or valuation accounts - Accounts 71100, 71400, 71200, 71300

The amounts requested in these accounts relate to all write-offs of the categories of assets listed in 8(a), (b), (c) and (d) which cover accounts receivable, assets of discontinued operations, investments, and loans. These write-offs do not flow through the income statement as charges against profits. They represent a reduction in the asset account and an offsetting reduction in the related balance sheet valuation account.
