B - Main Business Activity

1. Please describe the nature of your business

To ensure that you have received the appropriate questionnaire, you are asked to describe the nature of your business. The description should briefly state the main activities of your business unit.

2. Please check the one main activity which most accurately represents your main source of revenue

Below are descriptions for some main activities.

Record production

This industry is comprised of business units primarily engaged in record production. These business units contract with musical artists, and arrange and finance the production of original master recordings. Business units in this industry hold the copyright to the master recording and derive most of their revenue from selling, leasing, and licensing master recordings. Business units in this industry do not have their own duplication or distribution capabilities.

Integrated record production and distribution

This industry is comprised of business units primarily engaged in releasing, promoting and distributing sound recordings. Business units in this industry manufacture or arrange for the manufacture of recordings, such as audio tapes/cassettes and compact discs, and promote and distribute these products to wholesalers, retailers or directly to the public. These business units produce master recordings themselves, or obtain reproduction and/or distribution rights to master recordings produced by record production companies or other integrated record companies.

Music publishing

This industry is comprised of business units primarily engaged in acquiring and registering copyrights for musical compositions and promoting and authorizing the use of these compositions in recordings, on radio and television, in motion pictures, live performances, print, multimedia or other media. Business units in this industry represent the interests of songwriters or other owners of musical compositions in generating revenue from the use of such works, generally through licensing agreements. These business units may own the copyright or act as administrator of the music copyrights on behalf of copyright owners.

Sound recording studio

This industry is comprised of business units primarily engaged in providing the facilities and technical expertise for recording musical performances. Business units in this industry may also provide audio production or post-production

services for producing master recordings, and audio services for film, television and video productions.

Other sound recording services

This industry is comprised of business units, not classified to any of the above sound recording industries, that are primarily engaged in providing sound recording services, such as audio taping of meetings and conferences.

If none of the above activities describes your main source of revenue, please call **1 888 881-3666** for further instructions.

D - Revenue

1. Sales of goods and services (e.g., rental and leasing income, commissions, fees, admissions, services revenue). Report net of returns and allowances.

Sales of goods and services are defined as amounts derived from the sale of goods and services (cash or credit), falling within a business's ordinary activities. Sales should be reported net of trade discount, value added tax and other taxes based on sales.

Includes:

- sales from Canadian locations (domestic and export sales);
- transfers to other business units or a head office of your firm.

Excludes:

- transfers into inventory and consignment sales;
- federal, provincial and territorial sales taxes and excise duties and taxes;
- intercompany sales in consolidated financial statements.

2. Grants, subsidies, donations and fundraising

Please report contributions that are allocated to the current operations of the reporting period.

Includes:

- non-repayable grants, contributions and subsidies from all levels of government;
- revenue from private sector (corporate and individual) sponsorships, donations and fundraising.

3. Royalties, rights, licensing and franchise fees

A royalty is defined as a payment received by the holder of a copyright, trademark or patent. Please report revenue received from the sale or use of all intellectual property rights of copyrighted musical, literary, artistic or dramatic works, sound recordings or the broadcasting of communication signals.

General Information

Survey Purpose

Statistics Canada conducts this survey to obtain detailed and accurate data on this industry, which is recognised as being an important contributor to the Canadian economy. Your responses are critically important to produce reliable statistics used by businesses, non-profit organizations and all levels of government to make informed decisions in many areas.

The information from this survey can be used by your business to benchmark your performance against an industry standard, to plan marketing strategies or to prepare business plans for investors. Governments use the data to develop national and regional economic policies and to develop programs to promote domestic and international competitiveness. The data are also used by trade

associations, business analysts and investors to study the economic performance and characteristics of your industry.

Data-sharing Agreements

To avoid duplicating surveys and to ensure more uniform statistics, Statistics Canada has entered into data-sharing agreements with many provincial and territorial statistical agencies.

The objective of these data-sharing agreements is to share data from some surveys for those business establishments operating within their respective jurisdictions. **These agreements require that the shared data be used only for statistical purposes and be kept confidential.** Survey participants are always informed at the time of collection if a sharing agreement applies to a particular survey.

There are two types of data-sharing agreements that exist under the *Statistics Act*:

Agreements under Section 11 of the *Statistics Act* allow the sharing of information from the Unified Enterprise Survey program with the statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Saskatchewan, Alberta, British Columbia and Yukon. These statistical agencies have been established under provincial and territorial legislation authorizing them to collect this information on their own or jointly with Statistics Canada. Their legislation also provides the same confidentiality protection and outlines similar penalties for disclosure of confidential information as the federal *Statistics Act*.

Agreements under Section 12 of the *Statistics Act* allow the sharing of information from the Unified Enterprise Survey program with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut. All these Section 12 agreements require that the information be kept strictly confidential.

Under Section 12, you may refuse to share your information with any of these agencies by writing a letter of objection to the Chief Statistician of Canada and returning it with your completed questionnaire. Please specify those agencies from which data shall be withheld.

Please note that Statistics Canada does not share any individual survey information with the Canada Revenue Agency.

For more information about these data-sharing agreements, please contact Statistics Canada at **1 888 881-3666** or visit our website at **www.statcan.ca**.

Thank you!
