2. Please check the one main activity which most accurately represents your main source of revenue.

Below is a description of each main activity.

This industry is comprised of business units primarily engaged in record production. These business units contract with musical artists, and arrange and finance the production of original master recordings. Business units in this industry hold the copyright to the master recording and derive most of their revenue from selling, leasing, and licensing master recordings.

Integrated record production and distribution

This industry is comprised of business units primarily engaged in releasing, promoting and distributing sound recordings. Business units in this industry manufacture or arrange for the manufacture of recordings, such as audio tapes/cassettes and compact discs, and promote and distribute these products to wholesalers, retailers or directly to the public. These business units produce master recordings themselves, or obtain reproduction and/or distribution rights to master recordings produced by record production companies or other integrated record companies.

Music publishing

This industry is comprised of business units primarily engaged in acquiring and registering copyrights for musical compositions and promoting and authorizing the use of these compositions in recordings, on radio and television, in motion pictures, live performances, print, multimedia or other media. Business units in this industry represent the interests of songwriters or other owners of musical compositions in generating revenue from the use of such works, generally through licensing agreements. These business units may own the copyright or act as administrator of the music copyrights on behalf of copyright owners.

Sound recording studio

This industry is comprised of business units primarily engaged in providing the facilities and technical expertise for recording musical performances. Business units in this industry may also provide audio production or post-production services for producing master recordings, and audio services for film, television and video productions.

Other sound recording services

This industry is comprised of business units, not classified to any of the above sound recording industries, that are primarily engaged in providing sound recording services, such as audio taping of meetings and conferences.
