

Elementary/Secondary Education Staff Survey: Data Elements Collected

Listed below are the data elements that are collected or derived for inclusion in the Elementary/Secondary Education Staff Survey database maintained at Statistics Canada. The following information, however, is not available for all education staff. Some respondents supply only aggregate counts. Records are generated for these counts and included in the database, but many of the data element fields remain blank.

Data Elements Collected:

- Province
- Survey year
- Age or age group
- School or board staff
- Employment status (full or part-time)
- Staff position
- Full-time equivalent (FTE)
