

Release schedule

Farm data

Farm data at four geographic levels available on May 15, 2002 (free)

The first data from the 2001 Census of Agriculture are available on **May 15, 2002** at the Canada, provincial/territorial, and sub-provincial (census agricultural region [CAR] and census division [CD]) levels. This release contains all farm variables including: number and type of farms; crop and land use areas; land management practices; numbers of livestock and poultry; farm machinery and equipment; farm capital; and farm operating expenses and receipts.

Farm data at five geographic levels available on June 12, 2002 (fee)

Farm data at the census consolidation subdivision (CCS) level, the lowest level of geography available in standard tabulations from the Census of Agriculture, are available for all farm variables on the Internet or CD-ROM for a fee on **June 12, 2002**. All farm data from the May 15, 2002 release are also included.

Note:

- A paid subscription to the Internet version automatically grants access to this release and the subsequent farm operator/historical data on December 4. This access is effective for one year from the date of purchase.
- A CD-ROM purchase offers the choice of a stand-alone CD-ROM containing this release only, or savings on a CD-ROM subscription to both the June 12 and December 4 releases.

Farm operator data and historical data

Farm operator data at four geographic levels available on November 20, 2002 (free)

On **November 20, 2002**, the following farm operator variables are available at the Canada, provincial and sub-provincial (census agricultural region [CAR] and census division [CD]) levels: age, sex, residence status, farm and non-farm work, and farm-related injuries. In addition, it includes selected historical farm operator data for Canada and the provinces.

Farm operator data at five geographic levels available on December 4, 2002 (fee) (includes historical data for Canada and the provinces)

The second priced release on the Internet or CD-ROM is available on **December 4, 2002**. This release includes all farm operator data available on November 20, 2002 as well as all 2001 farm operator variables at the census consolidated subdivision (CCS) level. In addition, it includes selected historical farm data for Canada and the provinces.

Note:

- A paid subscription to the Internet version automatically entitles access to these data
- A CD-ROM purchase offers the choice of a stand-alone CD-ROM containing this release only, or a subscription to both the farm and farm operator/historical CD-ROMs at a reduced price.

Agriculture-Population Linkage data

In the **fall of 2003**, selected 2001 and historical data from the Census of Agriculture-Census of Population Linkage databases are available at the Canada and provincial levels for free. The socio-economic characteristics for farm operators include: age; sex; marital status; mother tongue; highest level of schooling; net farm income; as well as farm population counts and income profiles for census farm families and households. No linkage databases were created for the 1966 and 1976 Censuses, so historical comparisons are not possible for those years.

Canadian Agriculture at a Glance

In the **spring of 2004**, *Canadian Agriculture at a Glance*, a full-colour book of short, analytical articles on the agriculture sector, is available for \$49. Charts, tables, maps and photos accompany the articles.

Custom and semi-custom requests

The User Services Unit of the Census of Agriculture can tailor products and tabulations to meet clients' special data requirements. Custom tabulations allow users to create unique tables from the 2001 Census of Agriculture and Agriculture–Population Linkage databases as well as from the historical databases. Custom tabulations are available for the 1966 to 2001 Censuses. (Agriculture–Population Linkage databases were not created for the 1966 and 1976 Censuses.) Subject to confidentiality restrictions, custom tabulations can be produced for Census of Agriculture standard geographic areas as well as user-defined areas. Semi-custom products created from the standard tabulations are also available for clients interested in print-on-demand versions of the May 15 and November 20, 2002 free data releases or a provincial/regional component of the national farm data CD-ROM.

The full 2001 Census of Agriculture line of products and services

Product or service	Date available	Content description	Geography available	Price
Data products				
A. Data products for free on the Internet¹ at www.statcan.ca				
1. Farm data	May 15, 2002	All 2001 farm variables, e.g., number of farms, crop areas, livestock and poultry numbers, farm finances	Canada, province/territory, CAR, CD	Free
2. Farm operator data	November 20, 2002	All 2001 and 1996 farm operator variables, e.g., age, sex, farm and non-farm work, farm-related injuries	Canada, province, CAR, CD	Free
3. Agriculture-Population Linkage data	Fall 2003	Selected 2001 and historical data on socio-economic characteristics for farm operators including: age; sex; marital status; mother tongue; highest level of schooling; net farm income; as well as farm population counts and income profiles for census farm families and households	Canada, province	Free
B. Data products for a fee on CD-ROM¹				
1. Farm data	June 12, 2002	All 2001 farm variables, e.g., number of farms, crop areas, livestock and poultry numbers, farm finances	Canada, province/territory, CAR, CD, CCS	\$495
2. Farm operator and historical data	December 4, 2002	<ul style="list-style-type: none"> All 2001 and 1996 farm operator variables, e.g., age, sex, farm and non-farm work, farm-related injuries Selected farm and farm operator variables from previous censuses 	<ul style="list-style-type: none"> Canada, province, CAR, CD, CCS (CCS 2001 only) Canada, province 	\$295
3. Subscription to farm data and farm operator/historical data	<ul style="list-style-type: none"> June 12, 2002 for farm data December 4, 2002 for farm operator and historical data 	<ul style="list-style-type: none"> All 2001 farm variables, e.g., number of farms, crop areas, livestock and poultry numbers, farm finances All 2001 and 1996 farm operator variables, e.g., age, sex, farm and non-farm work, farm-related injuries Selected farm and farm operator variables from previous censuses 	<ul style="list-style-type: none"> Canada, province/territory, CAR, CD, CCS Canada, province, CAR, CD, CCS (CCS 2001 only) Canada, province 	\$740
C. Data products for a fee with an Internet¹ subscription at www.statcan.ca				
Farm, farm operator and historical data	<ul style="list-style-type: none"> June 12, 2002 for farm data December 4, 2002 for farm operator and historical data 	<ul style="list-style-type: none"> All 2001 farm variables, e.g., number of farms, crop areas, livestock and poultry numbers, farm finances All 2001 and 1996 farm operator variables, e.g., age, sex, farm and non-farm work, farm-related injuries Selected farm and farm operator variables from previous censuses 	<ul style="list-style-type: none"> Canada, province/territory, CAR, CD, CCS Canada, province, CAR, CD, CCS (CCS 2001 only) Canada, province 	\$740
Geography products (available on a CD-ROM or by electronic data transfer)				
Census agricultural regions (CARs) boundary file	May 15, 2002	A cartographic boundary file that delineates these sub-provincial geographic areas created for disseminating agricultural statistics	Canada except the territories	\$100 for CD-ROM
Agricultural ecumene of Canada	Spring 2003	A cartographic boundary file that delineates areas of significant agricultural activity in Canada as indicated by the 2001 Census of Agriculture	Canada except the territories; generalized for small-scale mapping	\$100 for CD-ROM (free for electronic data transfer)
Analytical product (print publication)				
<i>Canadian Agriculture at a Glance</i>	Spring 2004	Short, analytical articles on the agriculture sector, accompanied by charts, tables, maps and full-colour photos	All available geographic areas as analysis requires	\$49 (educational and volume discounts apply)
Services				
Custom products and services	Negotiable processing time	Client-requested, unique combinations from the 2001 Census of Agriculture, Agriculture–Population Linkage and historical databases. (The Agriculture–Population Linkage database is not available for 1966 and 1976.)	Census of Agriculture standard geographic areas and user-defined areas (subject to confidentiality)	Fee (based on consulting time; number of geographic areas and variables; processing requirements for delivery)
Semi-custom products	<ul style="list-style-type: none"> June 12, 2002 December 4, 2002 	<ul style="list-style-type: none"> Print-on-demand version of the free farm data release on the Internet Provincial/regional component of the national farm data CD-ROM Print-on-demand version of the free farm operator data release on the Internet 	<ul style="list-style-type: none"> Canada, province/territory, CAR, CD User-requested province/region Canada, province, CAR, CD 	<ul style="list-style-type: none"> \$250 \$250 \$250

¹ Internet and CD-ROM tabulations are available in two formats: HTML and IVT (the Beyond 20/20 browser format). The only exceptions are tabulations in the free farm data release on May 15, 2002, and the free farm operator data release on November 20, 2002, which are also available in PDF format on the Internet.
