*Coverage:* Respondents who had at least one job between January 2006 and December 2007.

*Note:* This variable was derived from the variables: HWED5 JBST24X5.

Questions on unpaid leaves were not asked in cycle 4, so the derived variable WKFTPTD4 could not be created as we do not know if the respondents were on an unpaid leave in December 2005. For this new variable, as long as the respondent had the job in December 2007, we took the information on the full-time or part-time status when they last worked at the job, and assign that job that status.

*Variable Name:*            **WKST01D5**                      *Position:*    52                      *Length:*        1

Variable indicates if respondent was employed and working at the job during the month. Variable is created for a maximum of 7 jobs collected in the survey. Note, if respondent was working at the job during the month, he or she was not on an unpaid leave from the job. In addition, the information on unpaid leaves was ignored if the data was incomplete, either because the respondent did not indicate whether any unpaid breaks occurred, how many breaks occurred, or did not indicate the start month or end month of a break.
