Questions on unpaid leaves were not asked in cycle 4, so the derived variable WKFTPTD4 could not be created as we do not know if the respondents were on an unpaid leave in December 2005. For this new variable, as long as the respondent <u>had</u> the job in December 2007, we took the information on the full-time or part-time status when they last <u>worked</u> at the job, and assign that job that status.
