B - Main business activity

1. Please describe the nature of your business.

To ensure that you have received the appropriate questionnaire, you are asked to describe the nature of your business. The description should briefly state the main activities of your business unit.

2. Please check the one main activity which most accurately represents your main source of revenue.

Below is a description of each main activity.

Permanent placement, executive search and contract staffing services

Establishments primarily engaged in listing employment vacancies and selecting, referring and placing applicants (including executives and contractors) in employment. The individuals placed are not employees of the placement agencies.

Temporary staffing services

Establishments primarily engaged in supplying workers for limited periods of time to supplement the workforce of the client. The individuals provided are salaried employees of the temporary staffing establishment. These business units do not provide direct supervision of their employees at the client's work sites.

Co-employment staffing services provided by a professional employer organization (PEO)

Establishments primarily engaged in providing human resources and human resource management services to clients.

These business units operate in a co-employment relationship with client businesses or organizations and are specialized in performing a wide range of human resource and personnel management duties, such as payroll accounting, payroll tax return preparation, benefits administration, recruiting, and managing labour relations.

Professional employer organizations typically acquire and lease back some or all of the employees of their clients and serve as the employer of the leased employees for payroll, benefits and related purposes. Professional employer organizations exercise varying degrees of decision making relating to their human resource or personnel management role, but do not have management accountability for the work of their clients' operations with regard to strategic planning, output or profitability.

If none of the above activities describes your main source of revenue, please call **1-888-881-3666** for further instructions.

- not to recruit from the client firm for a stated period of time.

The client makes the decision as to which candidate to hire. The search agency's fee is charged whether or not the candidate is hired. This product is also known as retained search.

2. Permanent placement services (exclude executive/retained search services)

Service of recruiting, selecting and referring candidates to the client to fill positions on a permanent (indeterminate) basis.

The services may include testing, interviewing, reference checking, evaluation and counselling of prospective employees. The service provider acts as an employment intermediary. 3. Contract staffing services (temporary assignment of contractors — non T4 recipients)

As they are not employees of the employment placement agencies, the individual contractors are normally responsible for their own payroll deductions and government filings.

4. Temporary staffing services (temporary assignment of staffing firm employees — T4 recipients)

This service may include training, counselling, assessment, and resume upgrading.

6. Co-employment staffing and payrolling services

Co-employment staffing is provided by a professional employer organization; payrolling is long term staffing such as labour leasing, staff leasing, employee leasing and extended employee staffing.

The PEO and the client enter into a contractual agreement whereby the rights and responsibilities in respect of co-employees are shared or allocated, with the service provider assuming responsibility for certain activities as agreed with the client. These range from basic to full-service packages.

Payrolling is supplying personnel for extended work assignments. Under the terms of this arrangement, the client may recruit the person or persons hired by the staffing firm and assigned to their place of work, or transfer a portion of their existing workforce to the staffing firm. Long-term employees are placed on the payroll of the staffing firm, which is legally responsible for their actions, but when working they are supervised by the client. Your responses are critically important to produce reliable statistics used by businesses, non-profit organizations and all levels of government to make informed decisions in many areas.

The information from this survey can be used by your business to benchmark your performance against an industry standard, to plan marketing strategies or to prepare business plans for investors. Governments use the data to develop national and regional economic policies and to develop programs to promote domestic and international competitiveness. The data are also used by trade associations, business analysts and investors to study the economic performance and characteristics of your industry.

Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data sharing agreements with provincial and territorial statistical agencies and other government organizations, who must keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the *Statistics Act* provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis, and the legislation must provide substantially

the same provisions for confidentiality and penalties for disclosure of confidential information as the *Statistics Act*. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are **Section 11** agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, and the Yukon.

The shared data will be limited to business establishments located within the jurisdiction of the respective province or territory.

Section 12 of the *Statistics Act* provides for the sharing of information with federal, provincial or territorial government organizations. Under **Section 12**, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify

the organizations with which you do not want to share your data.

For this survey, there are **Section 12** agreements with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut.

For agreements with provincial and territorial government organizations, the shared data will be limited to business establishments located within the jurisdiction of the respective province or territory.

Data Linkage

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

Please note that Statistics Canada does not share any individual survey information with the Canada Revenue Agency.
