Hence, for questions that do not apply to a respondent's situation because he/she did not follow the proper flow, a response category was present to allow such respondents to state that the question did not apply. These responses were used during data editing and later were eliminated. The following were affected : Questions YSB2 value 06, YSB3 value 12 (variable YSB3L) and YSB4 value 13 (variable YSB4M).

Note: Previous testing demonstrated that not all youth follow the proper flow of questions in a questionnaire. Hence, for questions that do not apply to a respondent's situation because he/she did not follow the proper flow, a response category was present to allow such respondents to state that the question did not apply. These responses were used during data editing and later were eliminated. The following were affected : Questions YSK5 value 5, YSK6 value 6 and YSK7 value 8 (variable YSK7H). The question YSK4text has been replace by YSOCC91.

Note: No destination focus for grades listed: Grades below the high school level and those grades at the high school level where courses are not required as a precondition to a particular destination. Often courses that are required as a precondition to a particular destination begin at higher grades. University preparatory: a) Courses which are generally those with the greatest academic challenge, designed primarily for students planning entry into university, into certain programs and colleges and technical schools, or into colleges offering University Transfer programs. b) Advanced level courses that are enriched and where student achievement in such courses is reported at the advanced level, and assessment is based on comparable standards. College/Work preparatory a) Courses which are less academic and intended primarily for students planning entry into colleges, technical schools, trades or entry into the workplace. b) Educational experiences which are broadly based and appropriate for all students and which may lead to further studies beyond senior high school years (e.g., apprenticeship, college and university). Work preparatory a) Basic level courses designed for preparation into the world of work. These courses provide a good preparation for direct entry into employment and serve the needs of a student who may not participate in post-secondary education.
