The **Canadian reporting entity**, as a statistical unit, is defined as the organisational unit of a business that directs and controls the allocation of resources relating to its domestic operations, and for which consolidated financial and balance sheet accounts are maintained from which international transactions, an international investment position and a consolidated financial position for the unit can be derived.

In this survey you are asked to report your cross-border trade with related foreign parties and your cross-border trade with other foreign (arm's length) parties.

Related foreign parties (or related entities) are entities in which investors have the ability to exercise significant influence by virtue of their investment. Related foreign parties include foreign parent companies, branches, subsidiaries and other related parties in which the parent owns at least 10% of the voting rights or is substantially controlled by the same shareholders (please refer to the Canadian Institute of Chartered Accountants (CICA) accounting standards). A related entity is either the foreign parent, a foreign affiliate in which your enterprise owns or controlled at least 10% of the voting rights, or a foreign affiliate owned or controlled by your foreign parent but in which the Canadian reporting entity holds no interest or less than 10%.

Other foreign parties are all other foreign entities that cannot be defined as related parties.
