Foreign Reporting entity: This questionnaire should cover investment in foreign subsidiaries and associates by a primary foreign subsidiary. The form supplements the data provided on questionnaire BP-59 "Capital invested abroad by Canadian enterprises" by identifying investments of the foreign subsidiaries in other foreign countries.

Details of direct investment in secondary foreign companies: All investment in secondary foreign subsidiaries and associates (held by the primary foreign subsidiary) that are located in other foreign countries should be reported on this form. The various items of investment to be reported are defined on the last page of the questionnaire. A primary foreign subsidiary is a company incorporated abroad in which the Canadian reporting entity owns a majority of shares carrying the right to elect a majority of the members of the board of directors. A secondary foreign subsidiary is a company incorporated abroad in which a primary foreign subsidiary owns a majority of the shares carrying the right to elect a majority of the members of the board of directors. A secondary foreign associate is a company incorporated abroad in which the primary foreign subsidiary owns at least 10% of the voting rights. Extra-national companies (E.N.C.'s) are companies incorporated in Canada with assets (except securities and cash) and business operations located entirely outside Canada. E.N.C.'s should be treated as primary foreign subsidiaries.

Except for column 14, all columns are to be reported at values **shown in the financial statements of the secondary foreign companies**. Columns 1 to 9 are to be converted to Canadian dollars at the exchange rate in effect at the end of their fiscal period. Please indicate this exchange rate in the appropriate column. Columns 10 to 12 are to be converted at the average exchange rate for the fiscal period. Column 14, **carrying value**, reflects the value of investment in secondary foreign companies from the financial statements of the **primary foreign subsidiary**. This will differ with column 6 (Book value) if the investment is carried on a cost basis.

Country code:

Please use the enclosed coding list to identify the country where primary and secondary foreign subsidiaries or associates are located. If a country is not identified on the coding list, please write the name in full.

Industry code:

The principal industry of activity of each secondary foreign subsidiary and associate is to be identified in the appropriate column according to Industrial Classification provided on page 5.
