Introduction

Survey purpose

This questionnaire is to collect additional information on purchases and the harvest of logs and bolts to be used in manufacturing of softwood lumber and other related softwood lumber products. Please access www.statcan.gc.ca/survey-enquete/index-eng.htm for more information on this survey.

Security of emails and faxes

Statistics Canada advises you that there could be a risk of disclosure during facsimile or email. However upon receipt, Statistics Canada will provide the guaranteed level of protection afforded all information collected under the authority of the *Statistics Act*. **Note:** Our online questionnaires are secure, there is no risk of data interception when responding to Statistics Canada online surveys.

Confidentiality

The *Statistics Act* protects the confidentiality of information collected by Statistics Canada.

Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data-sharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes.

Information on confidentiality, data-sharing agreements and record linkages can be found on the last page of this questionnaire.

Please return the questionnaire within 21 days.

Please mail the completed questionnaire in the enclosed envelope or fax it to Statistics Canada at 1-888-883-7999.

If you are unable to complete within 21 days **OR** if you need help, call us at **1-800-858-7921**.

Section 1:

Products that were COVERED under the scope of the 2006 Softwood Lumber Agreement Produced from Logs and Bolts

Table 1A - Purchases of logs and bolts to produce products that were COVERED under the scope of the 2006 Softwood Lumber Agreement

For each coniferous species, please provide details of your purchases of logs and bolts used in the production of products that were COVERED under the scope of the 2006 Softwood Lumber Agreement and listed in the table 1B below.
 Please report log and bolt purchases from other establishments at the value shown on your books of account (i.e. final selling price or book transfer value). For logs and bolts harvested from your establishment's tenure, report the value shown on your books of account FOB mill gate.

Only include softwood logs and bolts purchased and harvested to produce products listed in table 1B. Do not include softwood logs and bolts that were not further manufactured in your business unit and that were resold.

Report purchases in thousands of Canadian dollars.

Logs and bolts of spruce, pine and fir (except fuel wood and pulpwood) as raw material (purchased and harvested)		Logs and bolts of hemlock-fir (except fuel wood and pulpwood) as raw material (purchased and harvested)		Logs and bolts of Douglas fir and Western larch (except fuel wood and pulpwood) as raw material (purchased and harvested)		Logs and bolts of Western red cedar (except fuel wood and pulpwood) as raw material (purchased and harvested)		Other logs and bolts of softwood (except fuel wood and pulpwood) as raw material (purchased and harvested)

Table 1B - Sales of products that were COVERED under the scope of the 2006 Softwood Lumber Agreement

For each coniferous species, please provide your sales for the following products that were COVERED under the scope of the 2006 Softwood Lumber Agreement. Please report sales at the value shown on your books of account (i.e. final selling price or book transfer value). If these figures are not available, please provide an estimate based on quantity of logs and bolts used to produce these products.
Report sales in thousands of Canadian dollars, net of shipping charges by common or contract carriers, discounts, sales allowances, returned sales, sales taxes, and excise duties and taxes. Include products produced from softwood logs and bolts, but not those produced from lumber.

Table 1C - Sales of co-products produced during the making of products that were COVERED under the scope of the 2006 Softwood Lumber Agreement

Please provide your sales for the following co-products produced during the making of products that were COVERED under the scope of the 2006 Softwood Lumber Agreement listed in the table 1B above.

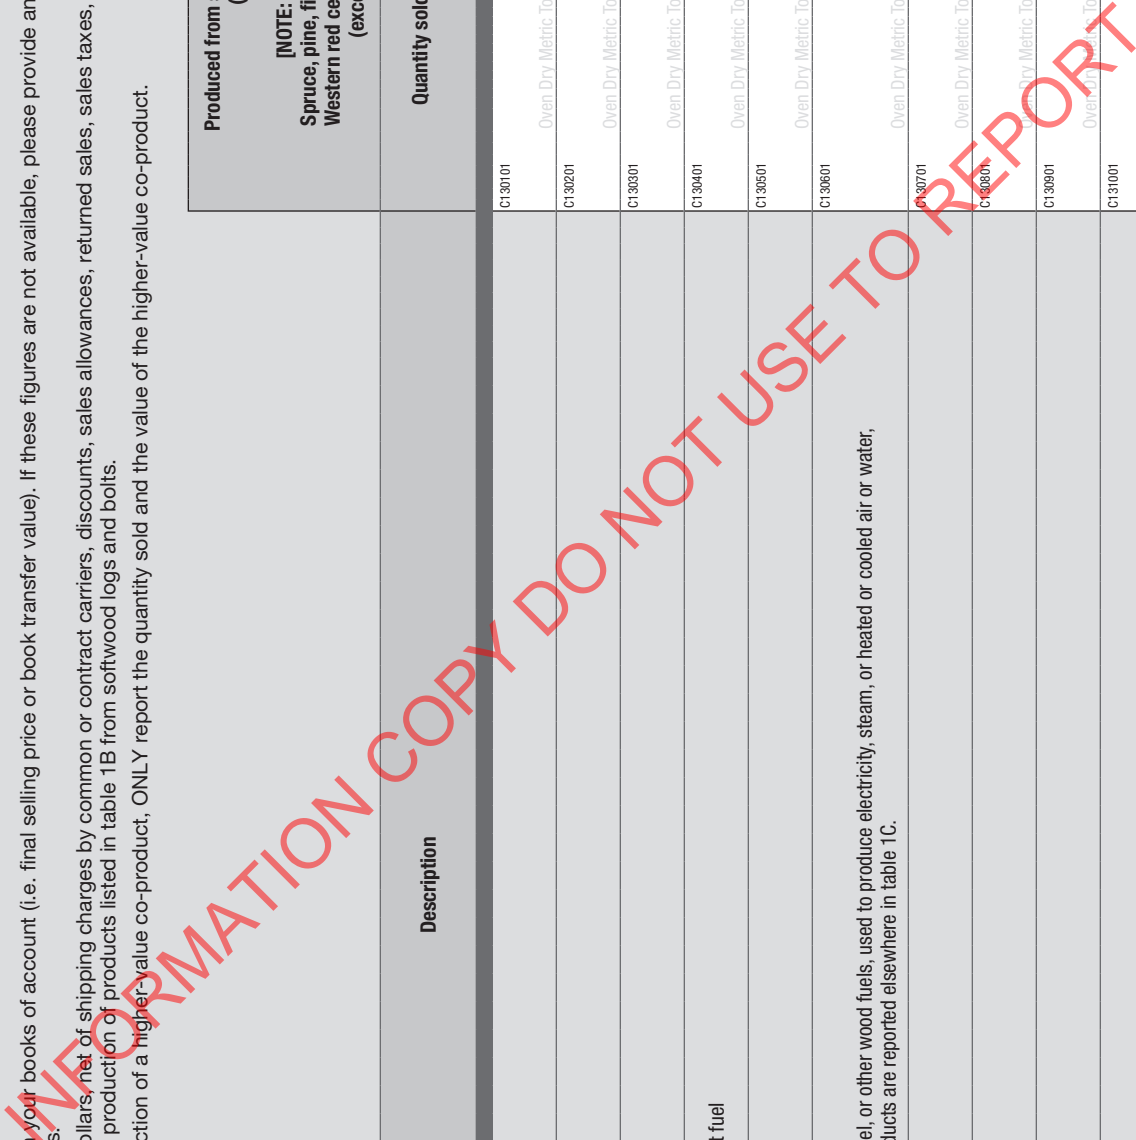

Please report sales at the value shown on your books of account (i.e. final selling price or book transfer value). If these figures are not available, please provide an estimate based on quantity of logs and bolts used to produce these products.

Report sales in thousands of Canadian dollars, net of shipping charges by common or contract carriers, discounts, sales allowances, returned sales, sales taxes, and excise duties and taxes. Include co-products produced during the production of products listed in table 1B from softwood logs and bolts.

If a co-product is consumed in the production of a higher-value co-product, ONLY report the quantity sold and the value of the higher-value co-product.

Table 2C - Sales of co-products produced during the making of products that were NOT COVERED under the scope of the 2006 Softwood Lumber Agreement

Please provide your sales for the following co-products produced during the making of products that were NOT COVERED under the 2006 Softwood Lumber Agreement listed in the table 2B above. Please report sales at the value shown on your books of account (i.e. final selling price or book transfer value). If these figures are not available, please provide an estimate based on quantity of logs and bolts used to produce these products.

Report sales in thousands of Canadian dollars, net of shipping charges by common or contract carriers, discounts, sales allowances, returned sales, sales taxes, and excise duties and taxes.

Include co-products produced during the production of products listed in table 2B from softwood logs and bolts.

If a co-product is consumed in the production of a higher-value co-product, ONLY report the quantity sold and the value of the higher-value co-product.

Table 4A - Purchases of softwood lumber to produce remanufactured softwood lumber products COVERED under the 2006 Softwood Lumber Agreement.

For each coniferous species, please provide ONLY your purchases of softwood lumber used in the production of the products listed in table 4B. Please report purchases at the value shown on your books of account (i.e. final selling price or book transfer value). Only include softwood lumber purchased to produce products listed in table 4B. Do not include lumber that was resold. Report purchases in thousands of Canadian dollars.

Table 4B - Sales of outputs COVERED under the scope of the 2006 Softwood Lumber Agreement and made from softwood lumber

Please provide your sales for the following products that were COVERED under the scope of the 2006 Softwood Lumber Agreement. Please report sales at the value shown on your books of account (i.e. final selling price or book transfer value). If these figures are not available, please provide your estimate based on quantity of lumber used to produce these products. Report sales in thousands of Canadian dollars, net of shipping charges by common or contract carriers, discounts, sales allowances, returned sales, sales taxes, and excise duties and taxes. Include products produced from lumber, but not those produced from logs and bolts.

Table 4C - Sales of co-products produced during the making of products COVERED under the scope of the 2006 Softwood Lumber Agreement and made from softwood lumber

Please provide your sales for the following products produced during the making of products listed in the table 4B above. Please report sales at the value shown on your books of account (i.e. final selling price or book transfer value). If these figures are not available, please provide your estimate based on quantity of lumber used to produce these products.

Report sales in thousands of Canadian dollars, net of shipping charges by common or contract carriers, discounts, sales allowances, returned sales, sales taxes, and excise duties and taxes.

Include co-products produced during the production of products listed in table 4B from softwood lumber.

If a co-product is consumed in the production of a higher-value co-product, ONLY report the quantity sold and the value of the higher-value co-product.

General information

Confidentiality

Your answers are confidential.

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the *Statistics Act*. Statistics Canada will use information from this survey for statistical purposes.

Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data-sharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the *Statistics Act* provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis, and the legislation must provide substantially the same provisions for confidentiality and penalties for disclosure of confidential information as the *Statistics Act*. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are **Section 11** agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia and the Yukon. The shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Section 12 of the *Statistics Act* provides for the sharing of information with federal, provincial or territorial government organizations. Under **Section 12**, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the

organizations with which you do not want to share your data. For agreements with provincial and territorial government organizations, the shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

For all manufacturing industries — there are **Section 12** agreements with the statistical agencies of Prince Edward Island, Northwest Territories and Nunavut, as well as with the Quebec Forest Industry Council, the Ministère de l'Énergie et des Ressources naturelles du Québec, the Ministère des Forêts, de la Faune et des Parcs du Québec, the Ontario Ministry of Northern Development and Mines, the Ontario Ministry of Natural Resources and Forestry, the Manitoba Conservation and Water Stewardship, the Saskatchewan Ministry of the Economy, the Alberta Ministry of Agriculture and Forestry, the British Columbia Ministry of Forests, Lands and Natural Resource Operations, Environment Canada, Natural Resources Canada and the National Energy Board.

For establishments in non-ferrous metal (and aluminum) smelting and refining, clay building material and refractory manufacturing, cement manufacturing and lime manufacturing — there are **Section 12** agreements with the Newfoundland and Labrador Department of Natural Resources, the New Brunswick Department of Energy and Mines, the Manitoba Department of Mineral Resources, the British Columbia Ministry of Energy and Mines and the British Columbia Ministry of Natural Gas Development.

Authorized disclosure

Section 17 of the federal *Statistics Act* allows for the disclosure of a list of individual establishments, firms or businesses showing information including the establishments' names and locations (province, territory and municipality) and North American Industrial Classification System (NAICS) codes. The disclosure of these lists may be authorized in order to aid analysts in the interpretation of the data from the Annual Survey of Manufacturing (Logging industries).

Record linkages

To enhance the data from this survey and to minimize the reporting burden, Statistics Canada may combine it with information from other surveys or from administrative sources.
