## PURPOSE OF THE SURVEY

The purpose of this survey is to obtain information on the supply of, and demand for, energy in Canada. This information serves as an important indicator of Canadian economic performance and is used by all levels of government in establishing informed policies in the energy area. In the case of public utilities, it is used by governmental agencies to fulfil their regulatory responsibilities. The private sector likewise uses this information in the corporate decision-making process.

## CONFIDENTIALITY

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the *Statistics Act* are not affected by either the Access to Information Act or any other legislation.

## DATA SHARING AGREEMENTS

To reduce response burden and to ensure uniform statistics, Statistics Canada has entered into data sharing agreements with provincial and territorial statistical agencies and other government organizations for the sharing of data from this survey. These organizations must keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Agreements to share information from this survey exist under Section 11 of the *Statistics Act* with the statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia and the Yukon, regarding business establishments located or operating in their respective jurisdiction. These statistical agencies have the legislative authority to collect this information on their own or jointly with Statistics Canada. Their legislation also contains the same confidentiality protection and outlines similar penalties for disclosure of confidential information as the federal *Statistics Act*.

Agreements to share information from this survey exist under Section 12 of the *Statistics Act* with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut, regarding business establishments located or operating in their respective jurisdiction, and with Saskatchewan Industry and Resources, the Alberta Energy and Utilities Board, the British Columbia Ministry of Energy, Mines and Petroleum Resources, Natural Resources Canada and Environment Canada. Under Section 12, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the organization with which you do not want to share your data.

Notes: (a) Mine and preparation plant values should be F.O.B. and should NOT include any outward transportation charges.  
 (b) Port shipment should be F.O.B. and include port loading and handling costs but NOT outward transportation charges.  
 (c) The value of shipments to port (lines 2.19, 2.20, 4.19, 4.20) should reflect the real market value. Therefore a value based on the estimated selling value at the port minus transportation costs from the mine would be appropriate.
