PURPOSE OF THE SURVEY

The purpose of this survey is to obtain information on the supply of, and demand for, energy in Canada. The information collected by this survey provides all levels of governments and the private sector with a more accurate picture of the overall final demand for energy and helps to design energy and environmental policies. Your information may also be used by Statistics Canada for other statistical and research purposes.

CONFIDENTIALITY

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the *Statistics Act*. Statistics Canada will use the information from this survey for statistical purposes.

DATA LINKAGE

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

DATA SHARING AGREEMENTS

To reduce respondent burden, Statistics Canada has entered into datasharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the Statistics Act provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis and the legislation must provide substantially the same provisions for confidentiality and penalties for disclosure of confidential information as the Statistics Act. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are **Section 11** agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, and the Yukon.

The shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Section 12 of the *Statistics Act* provides for the sharing of information with the federal, provincial or territorial government organizations. Under **Section 12**, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the organizations with which you do not want to share your data.

For this survey, there are **Section 12** agreements with the statistical agencies of Prince Edward Island, Northwest Territories and Nunavut as well as with Saskatchewan Department of Energy and Resources, Alberta Energy Resources Conservation Board, Alberta Department of Energy, British Columbia Ministry of Energy, Mines and Natural Resources, National Energy Board, Natural Resources Canada and Environment Canada.

For agreements with provincial and territorial government organizations, the shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Note that there is no right of refusal with respect to sharing the data with Saskatchewan Department of Energy and Resources and Alberta Energy Resources Conservation Board. In addition to being collected under the Statistics Act, the information is collected pursuant to The Oil and Gas Conservation Act and Regulations, 1985 (Saskatchewan) and the Mineral Resources Act (Saskatchewan) on behalf of Saskatchewan Department of Energy and Resources, and the Alberta Coal Conservation Regulation and sections 12.050 - 12.053 of the Alberta Gas and Oil Conservation Regulation, on behalf of the Alberta Energy Resources Conservation Board.

INSTRUCTIONS

- If you did not produce, use or ship any coal during the month, please check box and return this form.
- Statistics Canada and the provincial agencies listed below participate in the joint collection of these data. Therefore, please complete and return this form to Statistics Canada and a copy to the appropriate agency by the 20th DAY following the month under review.

Mines Branch, Geology and Mines Division, Saskatchewan Department of Energy and Resources 1914 Hamilton Street, Regina, Saskatchewan, S4P 4V4

Alberta Energy Resources Conservation Board Statistics Branch, 640 Fifth Avenue S.W., Calgary, Alberta, T2P 3G4

British Columbia Ministry of Energy, Mines and Natural Resources 1810 Blanshard St., 6th Floor Victoria, B.C., V8W 9M9

FAX OR E-MAIL TRANSMISSION DISCLOSURE

Statistics Canada advises you that there could be a risk of disclosure during the transmission of information by facsimile or e-mail. However, upon receipt, Statistics Canada will provide the guaranteed level of protection afforded to all information collected under the authority of the *Statistics Act*.

	2.29.		
	2.29.		
	2.29.		
Shipmonto from part to Pritish Columbia quatamara	2.29.		
Shipments from port to British Columbia customers Adjustments (state cause) /	2.38		
Company Eura Laigue Liguaett	1		

Note: a) Mine and preparation plant values should be F.O.B. and should NOT include any outward transportation charges.

b) Port shipment should be F.O.B. and include port loading and handling costs but **NOT outward transportation charges**.
c) The value of shipments to port (lines 2.19, 2.20, 4.19, 4.20) should reflect the real market value. Therefore a value based on the estimated selling value at the port minus transportation costs from the mine would be appropriate.
