Correct pre-printed information if necessary.

PURPOSE OF THE SURVEY

The purpose of this survey is to obtain information on the supply of, and demand for, energy in Canada. This information serves as an important indicator of Canadian economic performance and is used by all levels of government in establishing informed policies in the energy area. In the case of public atlifties, it is used by governmental agencies to fulfil their regulatory responsibilities. The private sector likewise uses this information in the corporate decision-making process.

CONFIDENTIALITY

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the *Statistics Act* are not affected by either the Access to Information Act or any other legislation.

DATA SHARING AGREEMENTS

To reduce response burden and to ensure uniform statistics, Statistics Canada has entered into data sharing agreements with various agencies and government departments for the joint collection and sharing of data from this survey. The information provided in this survey pertaining to individual respondents can not be disclosed by the parties with which Statistics Canada has agreements.

Agreements exist under section 11 of the *Statistics Act* to share information with the statistical agencies of Nova Scotia, Quebec, Saskatchewan and Alberta regarding business establishments located or operating in their respective province. These provincial statistical agencies have been established under provincial legislation authorizing them to collect this information on their own or jointly with Statistics Canada. The provincial legislation in those four provinces also contains the same confidentiality protection and outlines similar penalties for disclosure of confidential information as the federal *Statistics Act*.

Agreements exist under Section 12 of the Statistics Act with the Saskatchewan Industry and Resources, the Alberta Energy and Utilities Board, and the British Columbia Ministry of Energy and Mines to share the information collected by this survey for the respective provincial infidiction. As well, an agreement exists with Natural Resources Canada and Environment Canada with respect to all activities covered by this survey.

Under Section 12 of the Statistics Act you may refuse to share your information by writing the Chief Statistician and returning your letter of objection along with the completed questionnaire in the enclosed return envelope. Note that there is no right of refusal with respect to sharing the data with the Alberta Energy and Utilities Board and Saskatchewan Industry and Resources. The information is collected in Alberta under the Statistics Act and on behalf of the Board under the dutority of the Coal Conservation Act and Regulations or the Oil and Gas Conservation Act and Regulations, 1985 and the Saskatchewan Mineral Resources Act.

INSTRUCTIONS

- If you did not produce, use or ship any coal during the month, please check box └─ and return this form.
- Statistics Canada and the provincial agencies listed below participate in the joint collection of these data.
 Therefore, please complete and return this form to Statistics Canada and a copy to the appropriate agency by
- the 20th DAY following the month under review.
