INTRODUCTION

**This information is collected under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S-19.
COMPLETION OF THIS QUESTIONNAIRE IS A LEGAL REQUIREMENT UNDER THIS ACT.**

Purpose of this survey

This survey collects financial, wage and contractor fee information that is used to produce price indexes. These indexes measure change in prices for informatics professional services. You as the respondent will benefit from completing this questionnaire by now having the ability to benchmark your company against other companies in the same industry and having the ability to compare your wage rates with other companies in the same industry (in aggregate form only).

Statistics Canada uses this information to better measure the volume of activity in the computer services industry. For the purpose of this survey, "Informatics Professional Services" covers the following types of businesses: Software publishers; Data processing; Hosting and related services; Computer systems and related services; Internet publishing and broadcasting, and Web search.

Confidentiality

Your answers are confidential

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by

the *Statistics Act*. The confidentiality provisions of the *Statistics Act* are not affected by either the *Access to Information Act* or any other legislation. Therefore, for example, the Canada Revenue Agency cannot access identifiable survey records from Statistics Canada.

Information from this survey will be used for statistical purposes only and will be published in aggregate form only.

Record linkages

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

Your participation is important

Your participation is vital to ensuring that the information collected in this survey is accurate and comprehensive.

Fax or other electronic transmission disclosure

Statistics Canada advises you that there could be a risk of disclosure during facsimile or other electronic transmission. However, upon receipt, Statistics Canada will provide the guaranteed level of protection afforded to all information collected under the authority of the *Statistics Act*.

**Please return the completed questionnaire to Statistics Canada within 15 days of receipt
by mail using the return envelope.**

You can also fax it to us at 1-888-883-7999.

INSTRUCTIONS

Please use this page as a quick reference for definitions of the Business Activities listed on the next page (Section B). For more detail or assistance completing any of the other sections please refer to the reporting guide included with this questionnaire.

Software Publishing

This Canadian industry includes establishments primarily engaged in publishing computer software, usually for multiple clients and generally is referred to as packaged software. Establishments in this industry carry out operations necessary for producing and distributing computer software, such as designing, providing documentation, assisting in installation and providing support services to software purchasers. These establishments may design and publish, or publish only.

Examples: Packaged computer software publishing (including designing and developing); Packaged computer software, all formats; Packaged publishers games.

Data Processing, Hosting and Related Services

This Canadian industry includes establishments primarily engaged in providing hosting or data processing services. Hosting establishments may provide specialized hosting activities, such as web hosting, video and audio streaming services, application hosting, application services provisioning, or may provide general time-share mainframe facilities to clients. Data processing establishments may provide complete processing and preparation of reports from data supplied by the customer; specialized services, such as automated data entry; or they may make data processing resources available to clients on an hourly or time-sharing basis.

Examples: Application hosting; Automatic data processing; Computer input preparation services; Computer processing services; Computer time-sharing services; Data entry services; Data processing services; Disk and diskette conversion services; Input preparation services; Leasing of computer time; Microfilm recording and imaging services; Optical scanning data services; Rental of computer time; Computer service bureaus; Video and audio streaming services; Web hosting.

Internet Publishing, Broadcasting and Web Search Portals

This Canadian industry includes establishments primarily engaged in publishing and/or broadcasting content on the Internet or operating web sites, known as web search portals, that use a search engine to generate and maintain extensive databases of Internet addresses and content in an easily searchable format. The Internet publishing and broadcasting establishments in this industry provide textual, audio, and/or video content of general or specific interest. These establishments do not provide traditional (non-Internet) versions of the content that they publish or broadcast. Establishments known as web search portals often provide additional Internet services, such as e-mail, connections to other web sites, auctions, news, and other limited content, and serve as a home base for Internet users.

Examples: Internet directory publishing; Internet book publishing; Internet broadcasting; Internet entertainment sites; Internet game sites; Internet newspaper publishing; Internet periodical publishing; Internet software publishing; Publishing, maps, street guides and atlases (exclusively on Internet); Technical books, publishing (exclusively on Internet); Web search portals.

Computer Systems Design and Related Services

This Canadian industry includes establishments primarily engaged in providing expertise in the field of information technologies through one or more activities, such as writing, modifying, testing and supporting software to meet the needs of a particular customer, including the creation of Internet home pages; planning and designing computer systems that integrate hardware, software and communication technologies; on-site management and operation of clients' computer and data processing facilities; providing advice in the field of information technologies; and other professional and technical computer-related services.

Examples: Computer consulting services; Disaster recovery services; Facilities management services; Hardware consulting services; Custom computer programs or systems software development; Custom computer software consulting services; Programming services; Systems analysis and design; Computer-aided design (CAD) systems services; Computer-aided engineering (CAE) systems services; Data processing facilities management services; Design and system analysis, computer services (software); Facilities management services, computer support services; Information management system design services; Internet page design services, custom; Local area network (LAN) systems integrators; Management information systems design consulting services; Office automation, computer systems integration; Computer hardware requirements analysis; Software installation services; Custom software programming; Custom software systems analysis and design; Systems analysis and design, computer services (software); Systems engineering (system integration); Web page developing.
