Authority: This survey is conducted under the authority of the Statistics Act, Revised Statutes of Canada, 1985, c. S-19. Completion of this questionnaire is a legal requirement under the Statistics Act.

Survey objective: This survey collects data which are essential for the analysis of the Railway Transport Industry and the assessment of its contribution to the Canadian economy. These data provide input into Canada's System of National Accounts for the calculation of the Gross Domestic Product. They are also used by various Government Departments to develop policy and to monitor the industry.

Coverage: Common carrier railways operating in Canada.

Confidentiality: Statistics Canada is prohibited by law from publishing data which would divulge identifiable business information without the previous written consent of that business. The data reported on this questionnaire will be treated in confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other Legislation.

Return procedures: Please return the questionnaire by May 31st, 2002. If you are unable to do so, please inform us of the expected completion date.

Federal Agreements: In order to avoid duplication and ease the burden on respondents, Statistics Canada has entered into an agreement under section 12 of the Statistics Act, with Transport Canada and the Canadian Transportation Agency, for the joint collection and sharing of information. The agreements we have with these agencies require that they keep the information confidential and use it only for statistical and research purposes. ***Under section 12, respondents may object to the sharing of their information by giving notice in writing to the Chief Statistician and returning their letter of objection along with the completed questionnaire in the enclosed envelope.*** For federally-regulated carriers only, Statistics Canada is collecting the information for itself pursuant to the Statistics Act and on behalf of Transport Canada pursuant to the Canadian Transportation Act and the Carriers Information Regulations. In this case, respondents do not have the right to object to sharing their information since Transport Canada is authorized by law to require the respondent to provide the information.
