Selection criteria applied:

| DHC6_PK | For any new sample (only RDD in 1996/97) an adult aged 12 years and over is selected <br> to answer the Health Component. |
| :--- | :--- |
| DHC6_PKC | For the Alberta and Manitoba RDD, a child aged less than 12 years is selected, in <br> addition to a selected adult. |
| AM36_SRC | Information Source (i.e. which household member provided the information for the <br> previous questions). |
| AM36_LNG | Language of interview |

## General Component (Form H05)

(To be completed for all members of the household.)
Note: 1. In computer assisted interviewing, the options Don't Know (DK) and Refusal (R) are allowed on every question. However, the response categories, DK and R, are shown in this document only when the flow from these responses is not to the next question.
2. Additional content added for Health Canada, the health promotion questions (HPS), are identified with a screen name starting with 'S' (e.g. SACC identifies the additional access to services questions sponsored by Health Canada).
3. Additional content and sample added for Alberta Health, are identified with a screen name with ' $A$ ' preceding the name (e.g. AALC identifies the additional alconol questions sponsored by Alberta). Skip patterns for the additional sample are identified by "RDD", which stands for Random Digit Dialing. Alberta RDD sampte receive some, but not all, HPS questions.

## Two -Week Disability

TWOWK-INT The first few questions ask about \%yourlANAME'S\% health during the past 14 days. It is important for you to refer to the 44-day period from \%2WKSAGO\% to \%YESTERDAY\%.

TWOWK-Q1 During that period, did \%you/FNAME stay in bed at all because of illness or injury,
