Statistics Statistique Canada Canada

L

Authority:	Statistics Act, Revised Statutes of Canada, 1985, Chapter S19.
Objective:	This survey collects essential data to produce statistics on the incidence and characteristics of homicide offence in Canada. In aggregate form, it is used by federal and provincial policy makers as well as public and private researchers. The data are also widely disseminated by the media for purposes of general public information.
Confidentiality:	Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable respondent/individual without the previous written consent of the respondent/individual. The information reported on this questionnaire will be treated in confidence, used for statistica purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.
Correspondence:	If you require further clarification to complete this questionnaire please refer to the coding manual for greate detail and definitions or contact the Senior Analyst, Homicide Project, Canadian Centre for Justice Statistics Statistics Canada, Ottawa, Ontario, K1A 0T6. Telephone (613) 951-9023.
