[^0]- Land for pasture or grazing:

All land which is being used for pasture, grazing, native pasture, native hay, rangeland and grazable bush used for the grazing or feeding of livestock.

Exclude: - Areas to be harvested as dry hay, silage or forage seed;

- Community pastures, co-operative grazing associations or grazing reserves.

If a field is used the same year for harvesting Tame Hay and as a pasture, count it only once as a Tame Hay field.

## - Other Land:

- Area of farmstead: farm buildings, farmyard, home garden and roads;
- Idle land: improved land which was cropped, pastured or used for agricultural purposes last year, but is not being cropped this year;
- Fall crop area ploughed under but not reseeded;
- New broken land: land which has been cleared and prepared for cultivation but will not be cropped;
- Winterkilled land: winterkilled area from crops sown in the previous fall, which will not be reseeded or pastured to another crop;
- Wasteland, woodland, cut-over land, slough, swamp, marshland and irrigation ditches;
- Summerfallow land: land on which no crop will be grown during the year, but which may be cultivated or worked for weed control and/or
moisture conservation, or it may simply be left to lay fallow in order to renew the soil;
- Chemfallow: summerfallow where herbicides are used without working the soil;
- Fruits and vegetables, mushrooms, maple trees, Christmas trees and sod.

GENERAL INFORMATION

## Confidentiality

## Your answers are confidential.

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the Statistics Act. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation. Therefore, for example, the Canada Revenue Agency cannot access identifiable survey records from Statistics Canada.

Information from this survey will be used for statistical purposes only and will be published in aggregate form only.

## Record linkages

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

## Data-sharing agreements

To avoid duplication of enquiry, Statistics Canada has entered into data-sharing agreements with provincial statistical agencies, which must keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the Statistics Act provides for the sharing of information with provincial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same ininem ation, on a mandatory basis, and the legislation must provide substantially the same provisions for confidentiality and pe nalties for disclosure of confidential information as the Statistics Act. Because these agencies have the legal a. thority to compel businesses to provide the same information, consent is not requested and farm operations may not on iect to the sharing of their data.

For this survey, there are Section 11 agreements with the provincial statistica age cies of Ontario, British Columbia and Quebec.

The shared data will be limited to information pertaining to farm operaiion located within the jurisdiction of the respective province.

Section 12 of the Statistics Act provides for the sharing of in for ation with federal and provincial government organizations. Under Section 12, you may refuse to share you inforn ation with any of these organizations by writing a letter of objection to the Chief Statistician at the address belo $\%$.
