FUEL CONSUMPTION SURVEY
FUEL PURCHASE DIARY

This diary is for recording fuel purchases and answers to a few questions about this vehicle:

Make

[illegible]

Model

[illegible]

Licence plate number

--	--	--	--	--	--	--

Model Year

1	9		
---	---	--	--

All fuel purchases made during the diary period **January 1, 1981 to January 31, 1981** are to be recorded.

As the principal driver of this vehicle, we ask you to make sure that any other drivers also record the fuel purchases they make for this vehicle. Your participation in this survey is important regardless of how much the vehicle is used during the diary period.

In order to calculate the fuel consumption rate of a vehicle, it is necessary to have at least two purchases that are fill-ups. The most accurately calculated rate is obtained when the gas tank is filled for both the first and the last purchases. A fuel economy calculator is included in the inside front pocket if you wish to calculate the fuel economy rate for your vehicle.

Please read the next two pages of instructions for using the diary and complete the Vehicle Description Questionnaire on page 5. Then place the diary in your vehicle and immediately record the current odometer reading and the date at the top of page 6.

FOR INFORMATION ONLY

GENERAL INSTRUCTIONS

1. When entering numbers in boxes, please remember to insert leading zeros and to only record tenths in the shaded boxes. For example, if your answer is twenty and four-tenths kilometres (miles), you should write it in the boxes as follows:

						Tenths
0	0	0	2	0	4	

If your answer is zero kilometres (miles), fill the boxes with zeros.

2. Please note that the "odometer" is the gauge on your vehicle which records the distance travelled. The odometer continues to record all accumulated distance.
3. Please mark your answers boldly and clearly.
4. When the diary period is over, please ensure that the Vehicle Description Questionnaire has been completed. On the last day of the diary period, record the current odometer reading at the top of page 6. Then remove from the diary the pages you have filled in, beginning with page 5, and place them in the return envelope provided, and mail them back to Statistics Canada.

INSTRUCTIONS FOR RECORDING FUEL PURCHASES

Please refer to the example on the following page as you read the instructions.

As you stop at a fuel pump, the first three items of information should be recorded:

ITEM 1: The fuel purchase number, starting with 01 for the first fuel purchase, 02 for the second fuel purchase, etc.

ITEM 2: Record the date of the fuel purchase.

ITEM 3: Record the numbers showing on the odometer. This must be done immediately, as the odometer will continue to turn as soon as you drive away.

**ONCE YOU HAVE COMPLETED YOUR FUEL PURCHASE, COMPLETE
ITEMS 4 to 9:**

ITEM 4: Indicate which type of fuel you purchased by checking the appropriate circle. If you need to specify a different type of fuel, please remember to check the circle marked "other", and specify the type of fuel.

ITEM 5: Record the number of litres (gallons) showing on the fuel pump. Then indicate whether you purchased litres or gallons. If you purchased the fuel in the United States, do not convert the gallons into litres or imperial gallons.

ITEM 6: If you filled the gas tank, check the circle. If you did not fill the tank, leave this item blank.

ITEM 7: Record the price per litre (gallon) in dollars, cents and tenths of a cent.

ITEM 8: Record the total amount paid for the fuel in dollars and cents. If you purchased the fuel in the United States, do not convert the cost into Canadian dollars.

ITEM 9: If you purchased the fuel in the United States, check the circle. Otherwise leave this item blank.
