## I - Contact information

Person primarily responsible for completing this questionnaire:

I certify that the information contained herein is complete and correct to the best of my knowledge.

## General information

## Confidentiality

## Your answers are confidential.

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the Statistics Act. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation. Therefore, for example, the Canada Revenue Agency cannot access identifiable survey records from Statistics Canada.

Information from this survey will be used for statistical purposes only and will be published in aggregate form only.

## Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data sharing agreements with provincial and territorial statistical agencies and other government organizations, which must keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the Statistics Act provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis, and the legislation must provide substantially the same provisions for confidentiality and penalties for disclosure of confidential information as the Statistics Act. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are Section 11 agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, and the Yukon.

The shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

Section 12 of the Statistics Act provides for the sharing of information with federal, provincial or territorial government organizations. Under Section 12, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the organizations with which you do not want to share your data.

For this survey, there are Section 12 agreements with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut and Fisheries and Oceans Canada.

For agreements with provincial and territorial government organizations, the shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.

## Record linkages

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

## Additional information

In cases where information is reported on an amalgamated basis and relates to operations in more than one province or territory, Statistics Canada may allocate a portion of the reported information to these provincial or territorial operations. The allocated information will be shared in accordance with the Section 11 or 12 agreements of the Statistics Act, as described above.

In cases where there is a separate head office, Statistics Canada may adjust the reported revenues of that head office so that those revenues more fully reflect the value of the services the head office provides. In such cases, there will be a corresponding adjustment to the reported expenses of the units served. The adjusted information will be shared in accordance with the Section 11 or 12 agreements of the Statistics Act, as described above.
