## Survey Purpose

For operations with business units in more than one province/territory, Statistics Canada needs to estimate a provincial/territorial breakdown of the national data reported within the Annual Survey of Real Estate Rental and Leasing and Property Management Industries. In these cases, rather than having to complete this survey for each province/territory, this supplement (PTDS) was designed to collect the provincial/territorial breakdown of some key information as reported for the above mentioned annual survey.

**Note:** The corresponding annual survey and PTDS forms will have the same questionnaire number.

## General Guidelines

Please verify that the questionnaire number for the PTDS (located in the top left corner of this form) matches the questionnaire number in the pre-printed area on the front of the annual survey. Please report only for your Canadian business units.

**Note:** The Canada Totals that you enter on the PTDS should equal the sum of the provincial/territory values and also equal the corresponding figures reported on the annual survey. Example: the sum of all the provincial/territorial values of **Total Operating Revenue** reported on the PTDS should equal the **Total Operating Revenue**, in **Section H** at question 8, of the annual survey.

## Confidentiality

Please refer to the front page of the annual survey for more detailed information on confidentiality.

## Data-sharing agreements

More details on data-sharing are included in this package.

If you have any questions about how to complete this supplement, please call us toll-free at **1 888 881-3666**.
