GENERAL INFORMATION

This information is collected under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S-19. COMPLETION OF THIS QUESTIONNAIRE IS A LEGAL REQUIREMENT UNDER THIS ACT.

The purpose of this survey

Statistics Canada, in partnership with Natural Resources Canada, is conducting this survey to collect detailed information on the energy demand and consumption patterns of Canadian businesses, organizations and institutions. This survey collects data on the types and quantities of energy (such as electricity, natural gas etc.) consumed by businesses and institutions in Canada. One of the principal goals of Natural Resources Canada is to continually improve energy efficiency in Canada through various measures. Improving energy efficiency reduces greenhouse gas emissions that contribute to climate change. The information may also be used by Statistics Canada for other statistical and research purposes.

Data-sharing agreements

To reduce respondent burden, Statistics Canada has entered into data-sharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes.

Information on data-sharing agreements can be found on the last page of this questionnaire.

Record linkages

To enhance the data from this survey, Statistics Canada may combine it with information from other surveys or from administrative sources.

Fax or email transmission disclosure

Statistics Canada advises you that there could be a risk of disclosure during the transmission of information by facsimile

or e-mail. However, upon receipt, Statistics Canada will provide the guaranteed level of protection afforded to all information collected under the authority of the *Statistics Act*.

Confidentiality

The *Statistics Act* protects the confidentiality of information collected by Statistics Canada. Statistics Canada is prohibited by law from releasing any information it collects that could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the *Statistics Act*. Statistics Canada will use the information from this survey for statistical and research purposes.

Who should complete this questionnaire?

This questionnaire should be completed by a manager or facilities manager with a thorough knowledge of your organization's energy use.

Where to find energy-consumption information?

Common sources for finding your organization's energy consumption include your utility bills, your energy management information system, your utility company, as well as your landlord or property manager.

Reporting

Please report on all energy consumed during the 2014 calendar year.

If you prefer to return your completed questionnaire by fax, please send it to: 1-888-883-7999.

Which building(s) and space should you report?

When you are completing this questionnaire, please report for your establishment and its activities at the building address indicated on the front page of this questionnaire.

Your organization was selected from a list of establishments. For this survey, 'establishment' is a statistical term that refers to the entity or the smallest grouping of entities that provides a homogenous set of services and does not cross provincial boundaries. An establishment maintains accounting records from which it is possible to assemble all the information required to calculate the full value of production or service (total sales or shipments, inventories, costs of goods and services, salaries and wages, etc.).

The survey data will be used to measure energy consumption and to calculate energy intensity of different industries in Canada's commercial and institutional sector. To determine energy intensity, we need the total energy consumption associated with your business activities and the floor space occupied (i.e., used) by your organization for these activities.

Example 1: Transportation service establishment

This organization provides public transportation. Space occupied by this organization includes: the main office where the administration staff work; a wash bay where energy is used to heat water used to wash the buses; and a remote space rented from another party but used exclusively by this establishment to sell transportation passes. All these spaces should be included. This organization also rents out part of the space in one of its buildings to a restaurant where some staff members eat their lunches on a daily basis. This restaurant is run independently and managed by a different organization. The floor space and energy associated with this restaurant should be excluded.

Example 2: Learning centre

This learning centre is located in several buildings on the same campus. The main administration manages all the buildings, pays the bills, orders supplies, etc. The campus sometimes rents the gymnasium out for special events. The gymnasium should still be included in the floor space occupied by this organization. This centre has external electric outlets for block heaters used by vehicles owned by the organization. Energy used for block heating should be included. Energy used to operate these vehicles should be excluded.

Example 3: Retail business

This organization is located in three separate buildings including a warehouse, but only one location keeps track of the number of employees. All locations should be included in this survey. However, one building has space that is leased to another organization. The floor space leased to the other organization should be excluded.

If you are a retail building and

- i. If you are an anchor store within an enclosed mall or a strip mall, please report for only the portion of the mall which your anchor store occupies. An anchor store is a major commercial tenant such as a grocery store, a department store, or a sporting goods store which may have both a shared and independent entrance as in the case of enclosed malls often with different operating hours than the mall.
- ii. If you are not an anchor store and are reporting for an enclosed mall or a strip mall, the space of your building and the energy you are reporting for should include the space occupied by your business, all tenants, common space and indoor parking, but should exclude the space in buildings occupied by anchor store(s).

A. OPERATIONS

1. During the 2014 calendar year, which months was this building in operation?

C05000 All 12 months **or** only the following months

Mark (✓) **all** that apply

2. Please indicate the number of operating hours for this building during a typical week in 2014.

- Please exclude any time when maintenance, housekeeping, or security staff are working outside of the normal operating hours. If the hours vary for different parts of the building, report for that area which is open the longest.

C05100 Hour(s) during a typical week in 2014

3a. As of December 31, 2014, what was the total number of full-time equivalent employees that worked for your organization?

- Full-time equivalent employees work 30 hours or more per week.
- Please convert part-time employees to full-time equivalent. For example, two part-time workers who each work 15 hours a week can be considered one full-time equivalent.
- Exclude contractors and volunteers.

C06000 Full-time equivalent employee(s)

3b. How many employee(s) worked in the building during its main shift in 2014?

- By main shift, we mean the shift when the most employees are in the building.
- If the number of employee(s) changes depending on the season, report for the main shift during the busiest season.
- Include part-time and full-time employees.
- Exclude contractors and volunteers.

C06100 Total employee(s)

4. Is the building owned by the federal government, a crown corporation or an agency of the federal government?

- C23000 1 Yes
3 No

B. BUILDING OCCUPANCY

5a. As of December 31, 2014, what was the total floor area of the building?

- Include all enclosed floors of the building, such as indoor parking (include partially exposed parking), mechanical areas, common areas and basements.
If you don't know the exact area, please provide your best estimate (i.e., multiply the length of your building by its width and by the number of floors).

C04000 Total floor area of building

measured in: C04001 1 Square feet (ft^2) 3 Square metres (m^2)

5b. As of December 31, 2014, how was the total floor area of this building allocated?

- Include all enclosed floors of the building, including mechanical areas and basements.
Include annexes and temporary areas.

Table with 2 columns: Allocation of the building floor area, Percentage of the building floor area. Rows include Total floor area of this building (100%), Floor area occupied by your business, other businesses/tenants, common spaces, vacant space, and indoor parking.

6. Please indicate the percentage of total floor area of this building (as reported in 5a.) that was, for the 2014 calendar year,

a. heated to at least 10 degrees Celsius (50 degrees Fahrenheit)

- Include basements
Exclude indoor parking areas.

C25000 %

b. air conditioned

G. ENERGY USE

27a. For the 2014 calendar year, please report the total quantity and total expenditure for each energy source or domestic water consumed in this building, for the space indicated in question 5a.

- Please report expenditures in Canadian dollars.
- Exclude fuel or energy used for transportation.
- Include taxes, service charges and any rebates (**total amount on your utility bill**).
- If your landlord pays your energy bills, please consult landlord for values.
- Please report electricity generated on-site separately in questions 28 to 33.

27b. Does the energy use you reported in 27a account for all the energy consumed by this building, including all tenant space and common areas?

C08930 1 Yes → Go to question 28.
3 No

27c. For the 2014 calendar year, which types of energy usage were not included in 27a?

Mark (✓) **all** that apply

- C09001 Heating of space
- C09002 Water heating (water used for consumption)
- C09003 Cooling of space
- C09004 Plug load and lighting (electricity)
- C09005 Other usage - *Please specify*
- C09006

28. Does this building use electric power generated on site for this building?

- Include emergency power generation.

C12000 1 Yes 3 No → **Go to question 34.**

29. What energy sources were used for on-site electric power generation?

Energy source	Energy source(s) for on-site electricity generation <i>Mark (✓) all that apply</i>
Natural gas	C13003 <input type="checkbox"/>
Light fuel oil, diesel, kerosene	C13021 <input type="checkbox"/>
Propane or other bottled gas	C13007 <input type="checkbox"/>
Wood	C13011 <input type="checkbox"/>

C13120 <input type="text"/>	

30. During the 2014 calendar year, how much electricity was generated on-site, including emergency generator usage?

C14000 measured in: C14001 1 Kilowatt-hours (kWh)
 3 Gigajoules (GJ) C14002
 5 Other - *Please specify*

31. Is the electric power generation system also a cogeneration system (i.e., does it provide useful heat to the building)?

- Cogeneration is defined as the simultaneous generation of electricity and useful thermal energy (e.g., steam) in one process and from the same fuel source. Types of cogeneration units/systems include condensing steam turbines, combined cycle gas turbines, etc.

C15000 1 Yes
3 No

32. Is the electric power generation system connected to the grid (i.e., can you sell surplus generated energy back to a utility company or energy provider)?

C16000 1 Yes
3 No → Go to question 34.

33. During the 2014 calendar year, how much energy was sold back to a utility company or energy provider?

C17000 measured in: C17001 Kilowatt-hours (kWh)
C17002 Gigajoules (GJ)
C17003 Other - Please specify

34. During the 2014 calendar year, what was the principal energy source used for heating space in this building?

- The principal energy source is the source used to heat the largest proportion of floor area in this building.

DATA-SHARING AGREEMENTS

To reduce respondent burden, Statistics Canada has entered into data-sharing agreements with provincial and territorial statistical agencies and other government organizations, which have agreed to keep the data confidential and use them only for statistical purposes. Statistics Canada will only share data from this survey with those organizations that have demonstrated a requirement to use the data.

Section 11 of the *Statistics Act* provides for the sharing of information with provincial and territorial statistical agencies that meet certain conditions. These agencies must have the legislative authority to collect the same information, on a mandatory basis, and the legislation must provide substantially the same provisions for confidentiality and penalties for disclosure of confidential information as the *Statistics Act*. Because these agencies have the legal authority to compel businesses to provide the same information, consent is not requested and businesses may not object to the sharing of the data.

For this survey, there are **Section 11** agreements with the provincial and territorial statistical agencies of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, and Yukon. The shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territorial government organizations.

Section 12 of the *Statistics Act* provides for the sharing of information with federal, provincial or territorial government organizations. Under **Section 12**, you may refuse to share your information with any of these organizations by writing a letter of objection to the Chief Statistician and returning it with the completed questionnaire. Please specify the organizations with which you do not want to share your data.

For this survey, there are **Section 12** agreements with the statistical agencies of Prince Edward Island, the Northwest Territories and Nunavut as well as with Natural Resources Canada, Environment Canada, the British Columbia Ministry of Energy and Mines and the British Columbia Ministry of Natural Gas Development.

For agreements with provincial and territorial government organizations, the shared data will be limited to information pertaining to business establishments located within the jurisdiction of the respective province or territory.
