Introduction

Why do we conduct this survey?

The Wholesale Price Report collects prices of product transactions to create the Wholesale Services Price Index (WSPI). This index measures the price movements of services provided by wholesalers and is used to answer questions related to real output, productivity and valuation of imports for the wholesale sector. Your information may also be used by Statistics Canada for other statistical and research purposes.

The WSPI can also be used by businesses to measure their performance against industry trends, as well as for international comparisons of productivity, inflation and trade.

You are legally required to complete this questionnaire according to the *Statistics Act*.

Statistics Canada advises you that there could be a risk of disclosure during the transmission of information by facsimile or e-mail. However, upon receipt, Statistics Canada will provide the guaranteed level of protection afforded all information collected under the authority of the *Statistics Act*. **Note:** There is no risk of disclosure if you are completing a web-based questionnaire online.

Record linkage

To enhance the data from this survey and to minimize the reporting burden, Statistics Canada may combine it with information from other surveys or from administrative sources.

Confidentiality

Your answers are confidential

Statistics Canada is prohibited by law from releasing any information it collects which could identify any person, business, or organization, unless consent has been given by the respondent or as permitted by the *Statistics Act*. Statistics Canada will use the information from this survey for statistical purposes.
