LMEC_Q30

Do you manage or supervise other employees?

- 1 Yes (Go to LMEC_Q35)
2 No
DK, RF

Go to LMEC_C40

Universe:

All respondents who had a job in the reference week. Excludes the self employed.

Help text:

1. By managing or supervising other employees, we mean that a person is in some way responsible for how other employees do their work.
2. This may be either direct, for example overseeing subordinates, assigning tasks or evaluating performance, or indirect, for example designing work schedules or directing the work of lower level managers.

Source:

PIAAC D_Q08a

LMEC_Q35

How many employees do you supervise or manage directly or indirectly? Would that be...

INTERVIEWER: Read categories to respondent.

- 1 **1 to 5 people**
2 **6 to 10 people**
3 **11 to 24 people**
4 **25 to 99 people**
5 **100 or more people**
DK, RF

Universe:

All respondents who had a job in the reference week and supervised other employees. Excludes the self employed.

Help text:

1. 'Directly' refers to a situation in which employees are directly accountable to the respondent. For example, a general manager of a firm may supervise three managers directly, giving them orders or instructions, and checking to see whether these have been followed.
2. 'Indirectly' refers to a situation in which employees are not directly accountable to the respondent, but are accountable to another person who falls under the chain of command of the respondent. For example, if each of the three managers directly supervised by the general manager supervises 10 people, the general manager will supervise 3 people directly plus 30 people indirectly. In this case, the correct answer would be 33 people (25 to 99 people). If the 10 people supervised by the managers each supervise 10 people, 300 people would be added to the total, which would become 333 (100 or more people).
