Note: The wording of questions in the Canadian Income Survey varies depending on the characteristics of the person for whom the questions are asked. To make the questionnaire easier to read, this document presents the questions as if they were being asked of a man who is answering the CIS questions for his household consisting of two persons aged 16 and over. He was the person randomly selected to answer the disability questions.

## Introduction (STH)

Your household has been selected to participate in the "Canadian Income Survey".

The information collected will be used to complement the Labour Force Survey in order to monitor the economic well-being of individuals and families. These questions will cover the time frame between January and December of 2014.

While participation is voluntary, your cooperation is essential to ensure the information collected in this survey is as accurate and as comprehensive as possible. Your answers will be kept strictly confidential and used only for statistical purposes.
