Reasons why questions are asked

Step 1 asks about your farm as a business. This information tells us how Canadian farms are organized and owned.

Step 2 asks about the farm's operators. Names and addresses are used to make sure all farms are included in the census and none are counted twice.

Step 3 asks which standard measure of reporting land size you will use for the rest of the steps.

Steps 4-15 and 26 ask about the land you farm. This information shows which crops are grown and in which areas. The questions on land management practices identify what methods are being used and the extent to which farmers are implementing various practices.

Steps 16-19 ask you about the numbers of livestock and poultry on your farm. This information provides estimates on inventories and production available for domestic consumption and export.

Steps 20 and 21 ask about the market value of your farm and the machinery you use.

This information shows where certain types of farm machinery and equipment are used. This information helps businesses market their products and services.

Steps 22 and 23 ask about your farm's expenses and revenues and help us study farms of different financial sizes. Farm programs are developed and evaluated based on this information. Farm associations use this information to find out how farms are doing financially and to make representation to legislators and the public.

Step 24 asks about recent additions or purchases made for your farm. This information is used to monitor investment in farms.

Step 25 asks about your use of computers. This information will help decide how farmers get government services and information in the future.

Step 27 asks about your hired labour. This information is used to plan and develop training programs for farm workers.

The law protects what you tell us

The confidentiality of your Census of Agriculture form is protected by law. This means that only Statistics Canada employees who work with census data and have taken an oath of secrecy see your form. Your personal census information cannot be given to anyone outside Statistics Canada - not the police, not another government department, not another person. This is your right.

You can ask to see the information you gave about your farm on your 1996 Census of Agriculture form after November 1996. To do this, write to the Privacy Co-ordinator, Statistics Canada, 25th Floor, R.H. Coats Building, Ottawa, Ontario, K1A 0T6.
